#### MANAGEMENT COMMENTS

"2021 is off to a solid start with robust demand that never really slowed down from an exceptional 2020," Steven J. Hilton, executive chairman of Meritage Homes, stated. "Our average absorption pace for the first quarter of 2021 of 5.8 per month was 35% higher than prior year, resulting from the strength in the housing market, even as we managed our spec starts and the corresponding orders pace in most communities to align with constraints in the supply chain today. The current environment, coupled with our strategy centered on affordable entry-level and first move-up homes, enabled Meritage Homes to produce the highest first quarter of orders and closings in the company's history as well as the highest quarterly home closing gross margin since 2006.

"Absent large interest rate increases, we believe the current market demand will continue through 2021 at a minimum, and provide the homebuilding industry ongoing pricing power to offset commodity and other cost increases. Mortgage interest rates remain very affordable despite recent upticks, strong demographic homebuying trends persist for millennials and baby boomers, and the supply of new and resale homes is still constrained."

"Our closings of 2,890 homes this quarter were 25% higher than the first quarter of 2020," Phillippe Lord, chief executive officer of Meritage Homes, commented. "Quarterly sales orders of 3,458 homes were up 11% compared to the same period of 2020, despite an 18% decline in average community count. For the first quarter of 2021, home closing revenue of \$1.1 billion was 21% greater than prior year, which combined with a 24.7% home closing gross margin, produced an 88% year-over-year increase in our diluted earnings per share to \$3.44."

"At March 31, 2021, we had 203 active communities, in line with our guidance and slightly up from 195 at December 31, 2020. Despite weather and some delays in the building materials supply channel, we were able to open our expected communities on time. We remain on track to reach our goal of 300 communities by mid-2022. Given our strong pipeline of community openings, we expect to see an increase of approximately 20% in our community count by December 31, 2021 from the current level," Mr. Lord remarked. "During the quarter, we invested significantly for additional growth by spending nearly \$370 million on land acquisition and development. 5,900 net new lots were secured, a 106% increase year-over-year, which brings our total lot supply to over 58,000 lots.

"In addition to all of the progress we made within our existing geographies, we are excited to announce our first new market entry since 2016. With five communities already under contract in Myrtle Beach, our new Coastal Carolinas division will encompass Myrtle Beach, Charleston and the surrounding areas, and will further expand our East region operations, Mr. Lord added. "We will start gathering interest lists for these communities in the next few quarters ahead of the community openings in 2022."

Mr. Lord concluded, "Based on robust selling conditions and confidence in our ability to deliver our backlog, we are projecting 11,700-12,700 annual home closings and approximately \$4.55-4.85 billion in total home closing revenue for 2021. In addition, we anticipate home closing gross margin of approximately 25.0% and an effective tax rate of about 23.0%, and expect to realize diluted EPS in the range of \$13.75-14.75."

#### FIRST QUARTER RESULTS

The total orders of 3,458 for the first quarter of 2021 reflected an increase of 11% year-over-year, driven by a 35% increase in absorption pace from 4.3 to 5.8 per month. Entry-level represented 76% of first quarter 2021 orders, compared to 61% in the same quarter in 2020. Strong housing demand enabled Meritage to achieve higher absorptions across all its markets, although first quarter 2021 average community count declined 18%

from the first quarter of the prior year. Absorptions were up 67% in the East region, 34% in the Central region and 13% in the West region. The favorable market conditions also drove the year-over-year increase in average sales price ("ASP") for both orders and backlog, despite the company's shift in product mix toward entry-level homes.

- The 21% year-over-year increase in home closing revenue to \$1.1 billion for the quarter ended March 31, 2021 was due to 25% higher home closing volume partially offset by a 3% reduction in closing ASP, which was primarily attributable to the shift to entry-level homes. ASPs also reflected pricing increases as a result of the sustained housing demand.
- The 470 bps improvement in first quarter 2021 home closing gross margin to 24.7% from 20.0% a year ago mainly resulted from higher ASPs, as well as the
  additional closing volume and efficiencies gained from streamlined operations. These factors mitigated record high lumber prices and increases in other
  commodity costs.
- Selling, general and administrative expenses ("SG&A") were 9.8% of first quarter 2021 home closing revenue, a 90 bps improvement over 10.7% in the first
  quarter of 2020. This improvement was due to greater leverage of fixed expenses on higher home closing revenue, in addition to cost savings from
  technology enhancements, particularly as related to the company's sales and marketing efforts.
- The first quarter effective income tax rate was 20.6% in 2021 compared to 18.1% in 2020. The reduced rate in both years primarily stems from eligible energy tax credits on qualifying energy-efficient homes closed under the Taxpayer Certainty and Disaster Tax Relief Act enacted in December 2019.
- First quarter 2021 pre-tax margin increased 560 bps to 15.2%, compared to 9.6% in the first quarter of 2020. Net earnings were \$131.8 million (\$3.44 per diluted share) for the first quarter of 2021, an 85% increase over \$71.2 million (\$1.83 per diluted share) for the first quarter of 2020. Strong earnings growth reflected higher closing volume, pricing power, expanded gross margin and improved overhead leverage, which combined with a lower outstanding share count, led to an 88% year-over-year improvement in earnings per diluted share.

#### **BALANCE SHEET**

• Cash and cash equivalents at March 31, 2021 totaled \$716.4 million, compared to \$745.6 million at December 31, 2020, primarily as a result of net cash used for investments in real estate and share repurchases. Real estate assets increased from \$2.8 billion at December 31, 2020 to \$3.0 billion at March 31, 2021, reflecting an increase in sold inventory and greater spend on land acquisition and development which was partially offset by a decrease in spec inventory.

- A total of over 58,000 lots were owned or controlled as of March 31, 2021, compared to approximately 41,500 total lots at March 31, 2020. 5,900 net new lots were added in the first quarter of 2021, representing 43 future communities, of which 95% are for entry-level communities.
- Debt-to-capital and net debt-to-capital ratios were 29.2% and 10.9%, respectively, at March 31, 2021, which were in line with 30.3% and 10.5%, respectively, at December 31, 2020.
- The company repurchased 100,000 shares of stock for a total of \$8.4 million during the first quarter of 2021.
- On April 15, 2021, the company closed the offering of \$450 million 3.875% senior notes due 2029 and received approximately \$444.0 million in net proceeds.
   On March 31, 2021, the company issued a notice of redemption for April 30, 2021 for all of its \$300 million aggregate principal amount of 7.00% senior notes due 2022 ("2022 Notes"). The early redemption of the 2022 Notes is expected to result in approximately \$18.2 million of early extinguishment of debt charges in the second quarter of 2021.

The information included in this press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include expectations about the housing market in general, and our projected 2021 home closings, home closing revenue, gross margins, effective tax rate, diluted earnings per share and future community counts.

Such statements are based on the current beliefs and expectations of Company management and current market conditions, which are subject to significant uncertainties and fluctuations. Actual results may differ from those set forth in the forward-looking statements. The Company makes no commitment, and disclaims any duty, except as required by law, to update or revise any forward-looking statements to reflect future events or changes in these expectations. Meritage's business is subject to a number of risks and uncertainties. As a result of those risks and uncertainties, the Company's stock and note prices may fluctuate dramatically. These risks and uncertainties include, but are not limited to, the following: changes in interest rates and the availability and pricing of residential mortgages; inflation in the cost of materials used to develop communities and construct homes; our ability to obtain performance and surety bonds in connection with our development work; the ability of our potential buyers to sell their existing homes; legislation related to tariffs; the adverse effect of slow absorption rates; impairments of our real estate inventory; cancellation rates; competition; home warranty and construction defect claims; failures in health and safety performance; fluctuations in quarterly operating results; our level of indebtedness; our ability to obtain financing if our credit ratings are downgraded; our potential exposure to and impacts from natural disasters or severe weather conditions; the availability and cost of finished lots and undeveloped land; the success of our strategy to offer and market entry-level and first move-up homes; a change to the feasibility of projects under option or contract that could result in the write-down or write-off of earnest or option deposits; our limited geographic

diversification; the replication of our energy-efficient technologies by our competitors; shortages in the availability and cost of subcontract labor; our exposure to information technology failures and security breaches and the impact thereof; the loss of key personnel; changes in tax laws that adversely impact us or our homebuyers; our inability to prevail on contested tax positions; failure to comply with laws and regulations; our compliance with government regulations; negative publicity that affects our reputation; disruptions to our business by COVID-19, fear of a similar event, and measures that federal, state and local governments and/or health authorities implement to address it; and other factors identified in documents filed by the Company with the Securities and Exchange Commission, including those set forth in our Form 10-K for the year ended December 31, 2020 under the caption "Risk Factors," which can be found on our website at www.investors.meritagehomes.com.
