MERITAGE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

BUSINESS. We are a leading designer and builder of single-family homes in the rapidly growing Sunbelt states of Texas, Arizona and California. We focus on

providing a broad range of first-time, move-up and luxury homes to our targeted customer base. We and our predecessors have operated in Arizona since 1985, in Texas since 1987 and in Northern California since 1989. To expand our presence in Arizona, in 2001 we acquired Hancock Communities (Hancock), another well-established homebuilder that serves the first-time and move-up markets in the Phoenix area.

BASIS OF PRESENTATION. The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States, and include the accounts of Meritage Corporation and our wholly owned subsidiaries. Intercompany balances and transactions have been eliminated in consolidation and certain amounts have been reclassified to be consistent with current financial statement presentation. In the opinion of management, the unaudited consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our financial position and results of operations for the periods presented. The results of operations for any interim period are not necessarily indicative of results to be expected for a full fiscal year or for any future periods. These financial statements should be read in conjunction with our consolidated financial statements and footnotes thereto included in our annual report on Form10-K for the year ended December 31, 2001.

NEW ACCOUNTING PRONOUNCEMENTS. In June 2001, the Financial Accounting Standards Board (FASB) issued Statements of Financial Accounting Standards (SFAS) No. 141, "Business Combinations," effective July 1, 2001, and No. 142, "Goodwill and Other Intangible Assets," effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill will no longer be amortized but will be subject to annual impairment tests in accordance with SFAS No. 142.

Goodwill represents the cost of acquired companies in excess of the fair value of net assets acquired at acquisition date. The goodwill recorded resulting from our acquisitions is allocated to our business operating segments as follows:

	At March 31, 2002 (in thousands)

First-time and volume-priced	\$27,663
Mid- to luxury-priced	3,150

	\$30,813
	=====

Goodwill is reviewed by management for impairment annually, or whenever events or changes in circumstances indicate the carrying amount may not be recoverable.

Effective January 1, 2002, we adopted the nonamortization provisions of SFAS No. 142 related to the goodwill existing at December 31, 2001. The following table sets forth reported net income and earnings per share, as adjusted to exclude goodwill amortization expense (dollars in thousands except per share amounts):

During the second quarter of 2002, we will finalize the first of the required impairment tests of goodwill as of January 1, 2002. We cannot determine the effect of these tests on earnings or financial position at this time.

In October 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," effective for fiscal years beginning after December 15, 2001. This standard supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of," and provides a single accounting model for long-lived assets to be disposed of. SFAS No. 144 provides guidance on differentiating between assets held and used and assets to be disposed of. Assets to be disposed of would be classified as held for sale (and depreciation would cease) when management, having the authority to approve the action, commits to a plan to sell the asset(s) meeting all required criteria. We adopted this statement on January 1, 2002, which did not have a material effect on our earnings or financial position.

NOTE 2 - REAL ESTATE AND CAPITALIZED INTEREST

The components of real estate are as follows (in thousands):

	MARCH 31, 2002	DECEMBER 31, 2001
	-----	-----
Homes under contract, in production	\$164,071	\$135,005

Land held for development	4,531	5,224

----- \$375,326 =====	----- \$330,238 =====

We capitalize certain interest costs incurred during development and construction. Capitalized interest is allocated to real estate and charged to cost of sales when the property is closed. Summaries of interest capitalized and interest expensed follow (in thousands):

	-----	-----
Total	\$210,199	\$177,561
	=====	=====

</TABLE>

The bank credit facilities and senior unsecured notes contain covenants which require maintenance of certain levels of tangible net worth, compliance with certain minimum financial ratios and place limitations on the payment of dividends and redemptions of equity and limit the incurrence of additional indebtedness, asset dispositions, mergers, certain investments and creations of liens, among other items. As of March 31, 2002 and for the year ended December 31, 2001, we were in compliance with these covenants.

NOTE 4 - ACQUISITION

On May 30, 2001, we acquired substantially all of the homebuilding and related assets of HC Builders, Inc. and Hancock Communities, L.L.C. The purchase price was \$65.8 million in cash, plus the assumption of accounts payable, accrued liabilities and home sales deposits totaling \$9.4 million and a note payable totaling \$1.9 million. In addition, we granted to Greg Hancock, the founder of the company, an earn-out payable in cash over three years which was equal to 20% of Hancock's pre-tax net income after a 10.5% charge on capital.

This acquisition was accounted for using the purchase method of accounting. Accordingly, we recorded goodwill of approximately \$11.4 million, which represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired and liabilities assumed. This goodwill was allocated to our first-time and volume-priced business segment. Goodwill is also increased to the extent of the earn-out which amounted to approximately \$444,000 in the first quarter of 2002. Prior to January 1, 2002, the goodwill was being amortized over a period of 20 years.

NOTE 7 - SEGMENT INFORMATION

We classify our operations into two primary management segments: first-time and volume-priced homes and mid- to luxury-priced homes. These segments generate revenues through the sale of homes to external customers. We are not dependent on any one major customer or supplier.

Operational information relating to the different business segments follows. Certain information has not been included by segment due to the immateriality of the amount to the segment or in total. We evaluate segment performance based on several factors, of which the primary financial measure is earnings before interest and taxes (EBIT). The accounting policies of the business segments are the same as those described in Note 1. There are no significant transactions between segments.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q contains forward-looking statements. The words "believe," "expect," "anticipate," and "project" and similar expressions identify forward-looking statements, which speak only as of the date the statement was made. Such forward-looking statements are within the meaning of that term in Section 27A of the Securities Act of 1993, as amended, and Section 21E of the Securities Exchange Act of 1934. Such statements may include, but are not limited to, projections of revenue, income or loss, capital expenditures and backlog; plans for future operations; financing needs or plans and liquidity; the impact of changes in interest rates; and plans relating to our products or

services, acquisitions, and new or planned development projects, as well as assumptions relating to the foregoing.

Actual results may differ materially from those expressed in forward looking statements. Risks identified in Exhibit 99.1 to this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2001, including under the captions "Business" and "Market for the Registrant's Common Stock and Related Stockholder Matters" are in "Management's Discussion and Analysis of Financial Condition and Results of Operations Factors That May Affect Our Future Results and Financial Condition," and "Special Note of Caution Regarding Forward-Looking Statements" describe factors, among others, that could contribute to or cause such differences. These factors may also affect our business generally. As a result of these factors, the prices of our securities may fluctuate dramatically.

RESULTS OF OPERATIONS

The following discussion and analysis of financial condition provides information regarding our results of operations for the three months ended March 31, 2002 and 2001. All material balances and transactions between us and our subsidiaries have been eliminated. In management's opinion, the data reflects all adjustments, consisting of only normal recurring adjustments, necessary to fairly present our financial position and results of operations for the periods presented. The results of operations for any interim period are not necessarily indicative of results expected for a full fiscal year.

HOME SALES REVENUE. The increases in total home sales revenue and number of homes closed in the first three months of 2002 compared to the first three months of 2001 results mainly from the continued expansion of our operations in Northern California through the opening of new communities and the addition of Hancock Communities to our Arizona operations in May of 2001. Hancock closed 166 homes with a value of \$32.5 million in the first quarter of 2002. The decreases in average home sales prices in Arizona for the first quarter of 2002 reflect a change in our product mix, as we are now selling more volume-priced homes than in 2001.

SALES CONTRACTS. Sales contracts for any period represent the aggregate sales price of all homes ordered by customers net of cancellations. We do not include sales contingent upon the sale of a customer's existing home as a sales contract until the contingency is removed. Historically, we have experienced a cancellation rate approximating 25% of gross sales. Total sales contracts increased in the first three months of 2002 compared to the first three months of 2001 due mainly to the addition of Hancock Communities to our operations in Arizona, which contributed 224 new sales contracts with a value of approximately \$52.2 million, and an increase in demand for homes in Northern California. The increase in sales contracts in our Northern California region for the first quarter of 2002 is also attributable to an increase in the number of communities open for sales to 12 from 9 in the prior year's first quarter.

NET SALES BACKLOG. Backlog represents net sales contracts that have not closed. Total dollar backlog at March 31, 2002 increased 34% over the same period in 2001 amount due to an increase in the number of homes in backlog. The number of homes in backlog at March 31, 2002 increased 36% over the same date in the prior year. These increases resulted from the addition of Hancock Communities contributing 479 homes with a value of approximately \$104.6 million to backlog, and expansion of our operations in Northern California through the opening of new communities.

HOME SALES GROSS PROFIT. Home sales gross profit represents home sales

revenue, net of cost of home sales, which include developed lot costs, home construction costs, an allocation of common community costs (such as model complex costs and architectural, legal and zoning costs), interest, sales tax, warranty, construction overhead and closing costs. The dollar increase in gross profit for the quarter ended March 31, 2002 is attributable to a 47% increase in number of homes closed and continued growth in all of our markets. The gross profit percentage decrease in 2002 resulted from closings booked in the quarter which generally consisted of homes that were ordered in the second half of 2001, the margins for which were impacted by the slower economic conditions that existed at that time, which led our buyers to purchase more first-time and volume priced homes than mid to luxury priced homes.

COMMISSIONS AND OTHER SALES COSTS. Commissions and other sales costs, such as advertising and sales office expenses, were approximately \$11.3 million, or 6.7% of home sales revenue, in 2002, as compared to approximately \$7.0 million, or 6.0% of home sales revenue in 2001. The increase in these expenses as a percentage of home sales revenue reflects slightly higher marketing costs due to the greater number of new communities open for sale during the first quarter of 2002 compared to the first quarter of 2001. We had 77 actively selling communities at March 31, 2002 as compared to 57 at March 31, 2001.

GENERAL AND ADMINISTRATIVE EXPENSES. General and administrative expenses were approximately \$7.5 million, or 4.4% of total revenue in 2002, as compared to approximately \$4.9 million, or 4.2% of total revenue in 2001. Operating costs in 2002 were slightly higher as a percentage of revenue in comparison to the prior year due to increasing costs in the current year, including an increase in insurance expense in 2002 of \$608,000.

INCOME TAXES. The increase in income taxes to \$5.5 million for the quarter ended March 31, 2002 from \$4.8 million in the prior year resulted from an increase in pre-tax income.

LIQUIDITY AND CAPITAL RESOURCES

Our principal uses of working capital are land purchases, lot development and home construction. We use a combination of borrowings and funds generated by operations to meet short-term working capital requirements and we issue equity or debt in order to meet long-term capital requirements.

Cash flow for each of our communities depends on the status of the development cycle, and can differ substantially from reported earnings. Early stages of development or expansion require significant cash outlays for land acquisitions, plat and other approvals, and construction of model homes, roads, certain utilities, general landscaping and other amenities. Because these costs are capitalized, income reported for financial statement purposes during those early stages may significantly exceed cash flow. Later, cash flow can significantly exceed earnings reported for financial statement purposes, as cost of sales includes charges for substantial amounts of previously expended costs.

At March 31, 2002, we had short-term secured revolving construction loans and acquisition and development facilities totaling \$175.0 million, of which approximately \$50.7 million was outstanding. An additional \$84.8 million of unborrowed funds supported by approved collateral were available under these credit facilities at that date, subject to compliance with the financial and other covenants in our loan agreements. This additional borrowing was fully available under such loan covenants at March 31, 2002. We also have \$155 million

15

in principal outstanding in unsecured, 9.75% senior notes due June 1, 2011, which were issued in May 2001.

We believe that the current borrowing capacity and anticipated cash flows from operations are sufficient to meet liquidity needs for the foreseeable future. There is no assurance, however, that future amounts available from our cash flows will be sufficient to meet future capital needs. The amount and types of indebtedness that we incur may be limited by the terms of the indenture governing our senior notes and by the terms of our other credit agreements.

As a component of our model home construction activities, we enter into lease transactions with third parties. The total cost, including land costs, of model homes leased by us and constructed under these lease agreements is approximately \$19.0 million, all of which is excluded from our balance sheet as of March 31, 2002.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not enter into derivative financial instruments for trading purposes, although we do have other financial instruments in the form of notes payable and senior debt. Our lines of credit and credit facilities are at variable interest rates and are subject to market risk in the form of interest rate fluctuations. The interest rate on our senior debt is at a fixed rate of 9.75%. Except in the event of default or upon the recurrence of certain events, we do not have an obligation to prepay our fixed-rate debt prior to maturity and, as a result, interest rate risk and changes in fair value should not have a significant impact in the fixed-rate debt until we would be required to refinance such debt.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our Annual Meeting of Stockholders was held on May 8, 2002. At the Annual Meeting, the stockholders elected Steven J. Hilton, Raymond (Ray) Oppel and William G. Campbell and to serve as Directors for a two-year term. John R. Landon, Robert G. Sarver, C. Timothy White and Peter L. Ax continued as Directors after the meeting. Additionally, our stockholders approved an amendment to the Meritage Corporation 1997 Stock Option Plan that increased the total number of shares authorized for issuance by 300,000, and the number of shares that may be issued to any one person under the plan from 100,000 to 150,000.

Stockholders holding 5,326,985 shares (pre-split), or 94.07% of the outstanding shares, were present in person or by proxy at the Annual Meeting. A tabulation with respect to each nominee for director and the stock option plan amendment proposal follows:

PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995
SAFE HARBOR COMPLIANCE STATEMENT FOR FORWARD-LOOKING STATEMENTS

In passing the Private Securities Litigation Reform Act of 1995 (the "PSLRA"), Congress encouraged public companies to make "forward-looking statements" by creating a safe-harbor to protect companies from securities law liability in connection with forward-looking statements. Meritage intends to qualify both its written and oral forward-looking statements for protection under the PSLRA.

The words "believe," "expect," "anticipate," and "project" and similar expressions identify forward-looking statements, which speak only as of the date the statement was made. Such forward-looking statements are within the meaning of that term in Section 27A of the Securities Act of 1993, as amended, and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements in this Form 10-Q include statements concerning the demand for and the pricing of our homes, the expectation of continued positive operating results in the remainder of 2002 and beyond, the expected benefits of the Hancock acquisition, including future home closings and Hancock's future contribution to our revenues and earnings, and our ability to continue positive operating results in light of current economic conditions. Such statements are subject to significant risks and uncertainties.

Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements, and that could negatively affect the Company's business and the prices of our securities, include, but are not limited to, the following: (i) changes in national and local economic financial results and other conditions, such as employment levels, availability of mortgage financing, interest rates, consumer confidence, and housing demand; (ii) risks inherent in homebuilding activities, including delays in construction schedules, cost overruns, availability of subcontractors, changes in government regulation, increases in real estate taxes and other local fees; (iii) changes in costs or availability of land, materials, and labor; (iv) fluctuations in real estate values; (v) the timing of home closings and land sales; (vi) Meritage's ability to continue to acquire additional land or options to acquire additional land on acceptable terms; (vii) a relative lack of geographic diversification of Meritage's operations, especially when real estate analysts are predicting that new home sales in certain markets may slow during or after 2002; (viii) Meritage's inability to obtain sufficient capital on terms acceptable to Meritage to fund its planned capital and other expenditures; (ix) changes in local, state and federal rules and regulations governing real estate development and homebuilding activities and environmental matters, including "no growth" or "slow growth" initiatives, building permit allocation ordinances and building moratoriums; (x) expansion by Meritage into new geographic or product markets in which Meritage has little or no operating experience; (xi) the inability of Meritage to identify acquisition candidates that will result in successful combinations; (xii) the failure of Meritage to make acquisitions on terms acceptable to Meritage, or to successfully integrate acquired operations, into Meritage; (xiii) the loss of key employees of the Company, including Steven J. Hilton and John R. Landon; (xiv) Meritage's exposure to natural disasters; (xv) Meritage's significant level of indebtedness and the diversion of cash flow to make debt payments; (xvi) restrictions on our business activities imposed by the agreements governing our indebtedness; and (xvii) our inability to repay our indebtedness.

Forward-looking statements express expectations of future events. All forward-looking statements are inherently uncertain as they are based on various expectations and assumptions concerning future events and they are subject to numerous known and unknown risks and uncertainties which could cause actual events or results to differ materially from those projected. Due to these inherent uncertainties, the investment community is urged not to place undue reliance on forward-looking statements. In addition, Meritage undertakes no obligations to update or revise forward-looking statements to reflect changed assumptions, the occurrence of anticipated or unanticipated events or changes to projections over time. As a result of these and other factors, the prices of our securities may fluctuate dramatically.
