\$130,000,000

Meritage Corporation

7% Senior Notes due 2014

**which have been registered under the Securities Act and
guaranteed fully and unconditionally by all of our existing
subsidiaries (other than our two mortgage broker subsidiaries)
for any and all of the outstanding Meritage Corporation
unregistered 7% Senior Notes due 2014**

THE EXCHANGE OFFER AND WITHDRAWAL RIGHTS WILL EXPIRE AT 5:00 P.M.,

NEW YORK CITY TIME, ON JUNE 24, 2004, UNLESS EXTENDED.

We are offering to exchange up to \$130 million of our 7% senior notes due 2014 (the "exchange notes"), which have been registered under the Securities Act of 1933, as amended, for the identical principal amount of our outstanding unregistered 7% senior notes due 2014 (the "outstanding notes"). The aggregate principal amount at maturity of the outstanding notes, and therefore, the principal amount at maturity of exchange notes which would be issued if all the outstanding notes were exchanged, is \$130 million. The terms of the exchange notes will be identical with the terms of the outstanding notes, except that the issuance of the exchange notes is being registered under the Securities Act of 1933, and therefore the exchange notes will not be subject to the restrictions on transfer which apply to the outstanding notes.

The notes are our unsecured senior obligations. The notes rank equally with all of our other unsecured senior indebtedness.

Prior to the exchange offer, there has been no public market for the exchange notes. We do not currently intend to list the exchange notes on a securities exchange or seek approval for quotation of the exchange notes on an automated quotation system. Therefore, it is unlikely that an active trading market for the exchange notes will develop.

The exchange agent for the exchange offer is Wells Fargo Bank, National Association.

See "Risk Factors," which begin on page 12, for a discussion of certain factors that should be considered in evaluating the exchange offer.

Neither the Securities and Exchange Commission nor any state securities commission approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is May 24, 2004.

PROSPECTUS SUMMARY

The following summary highlights selected information contained elsewhere in this prospectus and may not contain all of the information that is important to you. For a more complete understanding of this exchange offer, we encourage you to read this entire document (including the documents incorporated herein by reference) and the documents to which we have referred you. Unless otherwise indicated in this prospectus, the terms "Meritage," the "Company", "we", "our" and "us" refer to Meritage Corporation and its subsidiaries and predecessors as a combined entity. Our results for the three months ended March 31, 2004 and all EBITDA, operating data and other operating ratios are unaudited.

THE COMPANY

We are a leading designer and builder of single-family homes in the rapidly growing Sunbelt states of Texas, Arizona, California and Nevada based on the number of home closings. We focus on providing a broad range of first-time, move-up and luxury homes to our targeted customer base. We and our predecessors have operated in Arizona since 1985, in Texas since 1987, in Northern California since 1989 and in Nevada since 1993. We entered the Inland Empire market of Southern California in January 2004 with our acquisition of Citation Homes of Southern California. In addition, we recently announced our expansion into the Denver market.

We believe that the relatively strong population, job and income growth as well as the favorable migration characteristics of our markets will continue to provide significant growth opportunities for us. According to U.S. Housing Markets, a leading real estate and homebuilding publication of the Meyers Group, five of our ten markets, Los Angeles, California, Phoenix/Scottsdale, Arizona, Dallas/Ft. Worth and Houston, Texas and Las Vegas, Nevada, are among or part of the top 10 national housing markets based on annual single-family housing permits issued in 2003, with Dallas/Ft. Worth, Houston, Phoenix/Scottsdale and Los Angeles comprising four of the top six single-family housing markets. The other three markets that we operate in are Austin and San Antonio, Texas and Tucson, Arizona.

At March 31, 2004, we were actively selling homes in 129 communities, with base prices ranging from \$98,000 to \$730,000. We develop a design and marketing concept tailored to each community, which includes determination of the size, style and price range of homes, street layout, size and layout of individual lots and overall community design. The home designs offered in a particular community also depend upon such factors as the housing generally available in the area, the consumer demands of a particular market and our lot costs for the project.

In general, we focus on minimizing land risk by purchasing property only after full entitlements have been obtained and typically begin development or construction immediately after close. We acquire land primarily through rolling option contracts, allowing us to purchase individual lots as our building needs dictate. These arrangements allow us to control lot inventory typically on a non-recourse basis without incurring the risks of land ownership or financial commitments other than relatively small non-refundable deposits. At March 31, 2004, we owned or had options to acquire approximately 35,200 housing lots, of which more than eighty-five percent were under rolling option and land purchase contracts. We believe that the lots we own or have the right to acquire represent approximately a five year supply.

Issuance of the Outstanding Notes

The outstanding \$130 million principal amount senior notes due 2014 were sold by us to Citigroup Global Markets Inc., as initial purchaser, on April 21, 2004 pursuant to a purchase agreement dated April 14, 2004, between the initial purchaser and us. The initial purchaser subsequently resold the outstanding notes in reliance on Rule 144A and Regulation S under the Securities Act. We and the initial purchaser also entered into a registration rights agreement pursuant to which we agreed to offer to exchange the exchange notes registered under the Securities Act for the outstanding notes and also granted holders of outstanding notes rights under some circumstances to have resales of outstanding notes

registered under the Securities Act. The exchange offer is intended to satisfy certain of our obligations under the registration rights agreement. See “The Exchange Offer — Purposes and Effects.”

The outstanding notes were issued under an indenture dated as of April 21, 2004, between Meritage Corporation, its subsidiary guarantors and Wells Fargo Bank, National Association, as trustee. The exchange notes also are being issued under the indenture and are entitled to the benefits of the indenture. The form and terms of the exchange notes will be identical in all material respects with the form and terms of the outstanding notes, except that (1) the exchange notes will have been registered under the Securities Act and, therefore, will not bear legends describing restrictions on transferring them, and (2) holders of exchange notes will not be, and upon the completion of the exchange offer, holders of outstanding notes will no longer be, entitled to certain rights under the registration rights agreement intended for the holders of unregistered securities. The exchange offer will be deemed completed upon the delivery by us to the exchange agent under the indenture of exchange notes in the same aggregate principal amount as the aggregate principal amount of outstanding notes that are validly tendered and not withdrawn by holders of them in response to the exchange offer. See “The Exchange Offer — Termination of Certain Rights” and “— Procedures for Tendering” and “Description of the Exchange Notes.”

The proceeds we received from the issuance of the outstanding notes were used to repay our senior unsecured credit facility and invest in short-term investments. We will receive no proceeds from completion of the exchange offer.

The Exchange Offer

The Exchange Offer	We are offering to exchange \$130 million of our 7% senior registered notes due 2014 for identical principal amounts of our outstanding unregistered 7% senior notes due 2014. At the date of this prospectus, \$130 million principal amount at maturity of outstanding notes are outstanding. See “The Exchange Offer — Terms of the Exchange Offer.”
Expiration of the Exchange Offer	5:00 p.m., New York, time, on June 24, 2004, unless the exchange offer is extended (the day on which the exchange offer expires being the expiration date). See “The Exchange Offer — Expiration Date; Extension; Termination; Amendments.”
Conditions of the Exchange Offer	The exchange offer is not conditioned upon any minimum principal amount of outstanding notes being tendered for exchange. However, the exchange offer is subject to certain customary conditions, which we may waive. See “The Exchange Offer — Conditions of the Exchange Offer.”
Accrued Interest on the Outstanding Notes	The exchange notes will bear interest at the rate of 7% per annum from and including their date of issuance. When the first interest payment is made with regard to the exchange notes, we will also pay interest on the outstanding notes which are exchanged, from the date they were issued or the most recent interest date on which interest had been paid (if applicable) to, but not including, the day the exchange notes are issued. Interest

on the outstanding notes which are exchanged will cease to accrue on the day prior to the day on which the exchange notes are issued. The interest rate on the outstanding notes may increase under certain circumstances if we are not in compliance with our obligations under the registration rights agreement. See “Description of the Exchange Notes.”

Procedures for Tendering the Outstanding Notes	A holder of outstanding notes who wishes to accept the exchange offer must complete, sign and date a letter of transmittal, or a facsimile of one, in accordance with the instructions contained under the “The Exchange Offer — Procedures for Tendering” and in the letter of transmittal, and deliver the letter of transmittal, or facsimile, together with the outstanding notes and any other required documentation to the exchange agent at the address set forth in “The Exchange Offer — Exchange Agent.” Outstanding notes may be delivered physically or by confirmation of book-entry delivery of the outstanding notes to the exchange agent’s account at The Depository Trust Company. By executing a letter of transmittal, a holder will represent to us that, among other things, the person acquiring the outstanding notes will be doing so in the ordinary course of the person’s business, whether or not the person is the holder, that neither the holder nor any other person is engaged in, or intends to engage in, or has an arrangement or understanding with any person to participate in, the distribution of the exchange notes and that neither the holder nor any such other person is an “affiliate,” as defined under Rule 405 of the Securities Act, of ours. Each broker or dealer that receives exchange notes for its own account in exchange for outstanding notes which were acquired by the broker or dealer as a result of market-making activities or other trade activities, must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes. See “The Exchange Offer — Procedures for Tendering.”
Guaranteed Delivery Procedures	Eligible holders of outstanding notes who wish to tender their outstanding notes and (1) whose outstanding notes are not immediately available or (2) who cannot deliver their outstanding notes or any other documents required by the letter of transmittal to the exchange agent prior to the expiration date (or complete the procedure for book-entry transfer on a timely basis), may tender their outstanding notes according to the guaranteed delivery procedures described in the letter of transmittal. See “The Exchange Offer — Guaranteed Delivery Procedures.”
Acceptance of the Outstanding Notes and Delivery of the Exchange Notes	Upon satisfaction or waiver of all conditions to the exchange offer, we will accept any and all outstanding notes that are properly tendered in response to the exchange offer prior to 5:00 p.m., New York Time, on the expiration date. The exchange notes issued pursuant to the exchange offer will be delivered promptly after expiration of the exchange offer. See “The Exchange Offer — Procedures for Tendering.”

Withdrawal Rights	Tenders of outstanding notes may be withdrawn at any time prior to 5:00 p.m., New York Time, on the expiration date. See “The Exchange Offer — Withdrawal of Tenders.”
The Exchange Agent	Wells Fargo Bank, National Association is the exchange agent. The address and telephone number of the exchange agent are set forth in “The Exchange Offer — Exchange Agent.”
Fees and Expenses	We will bear all expenses incident to our consummation of the exchange offer and compliance with the registration rights agreement. We will also pay any transfer taxes which are applicable to the exchange offer (but not transfer taxes due to transfers of outstanding notes or exchange notes by the holder). See “The Exchange Offer — Fees and Expenses.”
Resales of the Exchange Notes	Based on interpretations by the staff of the SEC set forth in no-action letters issued to persons unrelated to us, we believe exchange notes issued pursuant to the exchange offer in exchange for outstanding notes may be offered for resale, resold and otherwise transferred by the holder (other than (1) a broker-dealer who purchased the outstanding notes directly from us for resale pursuant to Rule 144A under the Securities Act or another exemption under the Securities Act or (2) a person that is an affiliate of ours, as that term is defined in Rule 405 under the Securities Act), without registration or the need to deliver a prospectus under the Securities Act, provided that the holder is acquiring the exchange notes in the ordinary course of business and is not participating, and has no arrangement or understanding with any person to participate, in a distribution of the exchange notes. Each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes which outstanding notes were acquired by the broker as a result of market-making or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of the exchange notes. See “The Exchange Offer — Purposes and Effects.”
Federal Income Tax Consequences	The exchange offer will not be treated as a taxable event for United States federal income tax purposes. See “United States Federal Income Tax Considerations.”

The Exchange Notes

The exchange notes will evidence the same debt as the outstanding notes and will be entitled to the benefits of the indenture under which both the outstanding notes were, and the exchange notes will be, issued. The following summary is not intended to be complete. For a more detailed description of the notes, see "Description of the Exchange Notes."

Issuer	Meritage Corporation.
Securities Offered	\$130 million aggregate principal amount of 7% Senior Notes due 2014 that have been registered under the Securities Act. The form and term of the exchange notes are identical in all material respects to the form and terms of the outstanding notes for which they may be exchanged pursuant to the exchange offer, except for certain transfer restrictions and registrations rights relating to the outstanding notes and except for certain provisions providing for an increase in the interest rate on the outstanding notes under circumstances relating to the exchange offer. Unless the context otherwise requires, the outstanding notes and the exchange notes are sometimes referred to in this prospectus as the "notes."
Maturity Date	May 1, 2014.
Interest	<p>The notes will accrue interest from the date of their issuance at the rate of 7% per year. Interest on the exchange notes will be payable semi-annually in arrears on each May 1 and November 1 commencing on November 1, 2004.</p> <p>In connection with the issuance of the outstanding notes on April 21, 2004, we and the guarantors agreed to:</p> <ul style="list-style-type: none">• file a registration statement to enable holders of the notes to exchange the notes for registered notes within 75 days of the original issue date of the outstanding notes, or by July 5, 2004;• use our respective reasonable best efforts to cause the registration statement to become effective under the Securities Act within 150 days following the original issue date of the outstanding notes, or by September 18, 2004; and• use our respective reasonable best efforts to complete the exchange offer within 180 days after the original issue date of the outstanding notes, or by October 18, 2004. <p>If we do not comply with these obligations (a "registration default"), we will be required to pay liquidated damages to the holders of the notes in the form of higher interest rates. Upon the occurrence of a registration default, the interest rate borne by the</p>

notes will be increased by 0.25% per annum and will continue to increase by 0.25% each 90 day period that the liquidated damages continue to accrue, up to a maximum of 1.00% per annum. After we cure the registration default, the accrual of liquidated damages will stop and the interest rate will revert to the original rate.

Sinking Fund

None.

Optional Redemption

We may redeem the notes, in whole or in part, at any time on or after May 1, 2009, at a redemption price equal to the principal amount plus a premium declining ratably to par, plus accrued interest.

In addition, at any time prior to May 1, 2007, we may redeem up to 35% of the aggregate principal amount of the notes issued under the indenture with the net cash proceeds of one or more qualified equity offerings at a redemption price equal to 107% of the principal amount thereof, plus accrued interest, *provided* that:

- at least 65% of the aggregate principal amount of the notes issued under the indenture remains outstanding immediately after the occurrence of such redemption; and
- such redemption occurs within 90 days of the date of the closing of any such equity offering.

Change of Control

If we experience a change of control, we may be required to offer to purchase the notes offered by this prospectus and the outstanding notes at a purchase price equal to 101% of the principal amount, plus accrued interest.

Ranking and Guarantees

The notes are our senior unsecured obligations. All of our existing subsidiaries (other than our two mortgage broker subsidiaries) and certain of our future subsidiaries guarantee the notes on a senior unsecured basis.

The notes rank equally with all of our and our guarantors' existing and future senior unsecured debt.

The notes rank senior to all of our and our guarantors' debt that is expressly subordinated to the notes, but is effectively subordinated to all of our and our guarantors' senior secured indebtedness to the extent of the value of the assets securing that indebtedness.

Consolidated Tangible Net Worth

If our consolidated tangible net worth falls below \$60.0 million for any two consecutive fiscal quarters, we will be required to make an offer to purchase up to 10% of the notes then outstanding at a purchase

price equal to 100% of the principal amount, plus accrued interest.

Restrictive Covenants

The indenture governing the notes contains covenants that, among other things, limit our ability and the ability of our subsidiaries to:

- incur additional indebtedness or liens;
- pay dividends or make other distributions or repurchase or redeem our stock;
- make investments;
- sell assets;
- enter into agreements restricting our subsidiaries' ability to pay dividends;
- enter into transactions with affiliates; and
- consolidate, merge or sell all or substantially all of our assets.

These covenants are subject to important exceptions and qualifications, which are described under the heading "Description of the Exchange Notes" in this prospectus.

Absence of a Public Market

The exchange notes will be a new issue of securities and there is currently no established market for them. Accordingly, there can be no assurance as to the development or liquidity of any market for the notes or, if issued, the exchange notes. The notes outstanding are eligible for trading in The Portal Market.

Use of Proceeds

We will receive no proceeds from the exchange of the exchange notes for the outstanding notes pursuant to the exchange offer. The proceeds we received from the outstanding notes were used to repay our senior unsecured credit facility and invest in short-term investments. See "Use of Proceeds."

Trustee

Wells Fargo Bank, National Association.

RISK FACTORS

You should consider carefully the information set forth in the section of this prospectus entitled "Risk Factors" beginning on page 12 and all the other information provided to you in this prospectus in deciding whether to invest in the notes.

- (1) 2001 earnings include a \$383 loss related to the net effect of early extinguishments of long-term debt. Previously this amount, net of the tax effect of \$149 was reported as an extraordinary item. We have reclassified this loss as general and administrative expense and income tax benefit, respectively, to conform to the requirements of SFAS No. 145, which was effective for fiscal years beginning after May 15, 2002.

- (2) Interest incurred is the amount of interest paid and accrued (whether expensed or capitalized) during such period, including debt-related fees and amortization of deferred financing costs.
- (3) EBITDA represents earnings before interest expense, interest amortized to cost of sales, income taxes, depreciation, amortization and extraordinary items. EBITDA is presented here because it is a widely accepted financial indicator used by investors and analysts to analyze and compare homebuilding companies on the basis of operating performance. EBITDA as presented may not be comparable to similarly titled measures reported by other companies because not all companies necessarily calculate EBITDA in an identical manner and, therefore, is not necessarily an accurate means of comparison between companies. EBITDA is not intended to represent cash flows for the period or funds available for management's discretionary use nor has it been presented as an alternative to operating income or as an indicator of operating performance and it should not be considered in isolation or as a substitute for measures of performance prepared in accordance with accounting principles generally accepted in the United States of America. The reconciliation of EBITDA to net earnings for each of the respective periods shown is as follows:

- (4) EBITDA margin is calculated by dividing EBITDA by total sales revenue.
- (5) For purposes of computing the ratio of earnings to fixed charges, "earnings" consist of income before income taxes and extraordinary items plus fixed charges less capitalized interest. "Fixed charges" consist of interest expense including amortization of deferred financing costs, one-half of rent expense, which is deemed to be representative of an interest factor, and capitalized interest.
- (6) EBITDA and operating ratios are unaudited.
- (7) On a quarterly basis, this is not a meaningful calculation.

RISK FACTORS

You should consider carefully the information set forth in this section along with all the other information provided to you or incorporated by reference in this prospectus in deciding whether to invest in the notes.

Risks Relating to Meritage

As a participant in the homebuilding industry we are subject to its fluctuating cycles and other risks that can negatively affect the demand for, cost of, and pricing of our homes.

The homebuilding industry is cyclical and is significantly affected by changes in economic and other conditions, such as employment levels, availability of financing, interest rates, and consumer confidence. These factors can negatively affect the demand for and cost of our homes. The occurrence or continuation of any of the above items and the items described below could have a negative impact on our business and adversely affect the value of the notes. We are also subject to various risks, many of which are outside of our control, including delays in construction schedules, cost overruns, changes in governmental regulations (such as no- or slow-growth initiatives), increases in real estate taxes and other local government fees, and raw materials and labor costs.

We are also subject to the potential for significant variability and fluctuations in the cost and availability of real estate. Although historically we have generally developed parcels ranging from 100 to 300 lots, in order to achieve and maintain an adequate inventory of lots, we are beginning to purchase larger parcels, in some cases with a joint venture partner. Write-downs of our real estate could occur if market conditions deteriorate and these write-downs could be material in amount. Write-downs may also occur if we purchase land at higher prices during stronger economic periods and the value of that land subsequently declines during slower economic periods.

We are subject to construction defect and home warranty claims arising in the ordinary course of business which could lead to additional reserves or expenses that may adversely affect our business.

Construction defect and home warranty claims are common in the homebuilding industry and can be costly. While we maintain product liability insurance and generally require our subcontractors and design professionals to indemnify us for liabilities arising from their work, we cannot assure you that these insurance rights and indemnities will be adequate to cover all construction defect and warranty claims for which we may be liable. For example, we may be responsible for applicable self-insured retentions, which have increased recently, and certain claims may not be covered by insurance or may exceed applicable coverage limits.

We face reduced coverages and increased costs of insurance.

Recently, lawsuits have been filed against builders asserting claims of personal injury and property damage caused by the presence of mold in residential dwellings. Some of these lawsuits have resulted in substantial monetary judgments or settlements. We believe that we have maintained adequate insurance coverage to insure against these types of claims for homes completed before October 1, 2003. Insurance carriers have begun excluding claims arising from the presence of mold from policies for many builders and, as of October 1, 2003, our insurance policy began excluding mold coverage. If our retentions are not sufficient to protect against these types of claims or if we are unable to obtain adequate insurance coverage, a material adverse effect on our business, financial condition and results of operations could result if we are exposed to claims arising from the presence of mold in the homes that we sell.

Partially as a result of the September 11 terrorist attacks, the cost of insurance has risen, deductibles or retentions have increased significantly and the availability of insurance has diminished. Significant increases in our cost of insurance coverage or retentions could have a material adverse effect on our business, financial condition and results of operations.

We experience fluctuations and variability in our operating results on a quarterly basis and, as a result, our historical performance may not be a meaningful indicator of future results.

We historically have experienced, and expect to continue to experience, variability in home sales and net earnings on a quarterly basis. As a result of such variability, our historical performance may not be a meaningful indicator of future results. Fluctuations in our results could cause the value of the notes to decline. Factors that contribute to this variability include:

- timing of home deliveries and land sales;
- our ability to acquire additional land or options for additional land on acceptable terms;
- conditions of the real estate market in areas where we operate and of the general economy;
- the cyclical nature of the homebuilding industry, changes in prevailing interest rates and the availability of mortgage financing;
- costs and availability of materials and labor; and
- delays in construction schedules due to strikes, adverse weather, acts of God, reduced subcontractor availability and governmental restrictions.

Increases in interest rates and the unavailability of mortgage financing can adversely affect housing demand.

In general, housing demand is adversely affected by increases in interest rates and housing costs and the unavailability of mortgage financing. Most of our buyers finance their home purchases through third-party lenders providing mortgage financing. If mortgage interest rates increase and, consequently, the ability of prospective buyers to finance home purchases is adversely affected, home sales, gross margins and cash flow may also be adversely affected and the impact may be material. Although interest rates are currently near historically low levels, they have recently begun to rise and it is impossible to predict future increases or decreases in market interest rates. In addition, homebuilding activities depend upon the availability and costs of mortgage financing for buyers of homes owned by potential customers, as those customers (move-up buyers) often need to sell their residences before they purchase our homes. Any reduction of financing availability could adversely affect home sales.

If we are unable to successfully compete in the highly competitive homebuilding industry, our financial results and growth could suffer.

The homebuilding industry is highly competitive. We compete for sales in each of our markets with national, regional and local developers and homebuilders, existing home resales and, to a lesser extent, condominiums and available rental housing. If we are unable to successfully compete, our financial results and growth could suffer and the value of, or our ability to service, the notes could be adversely affected. Some of our competitors have significantly greater financial resources or lower costs than we do. Competition among both small and large residential homebuilders is based on a number of interrelated factors, including location, reputation, amenities, design, quality and price. Competition is expected to continue and become more intense, and there may be new entrants in the markets in which we currently operate and in markets we may enter in the future.

Our lack of geographic diversification could adversely affect us if the homebuilding industry in our current markets should decline.

We have operations in Texas, Arizona, California and Nevada. Our lack of geographic diversification could adversely impact us if the homebuilding business in our current markets should decline, since there may not be a balancing opportunity in a stronger market in other geographic regions.

We are subject to extensive government regulation that could cause us to incur significant liabilities or restrict our business activities.

Regulatory requirements could cause us to incur significant liabilities and costs and could restrict our business activities. We are subject to local, state, and federal statutes and rules regulating certain development matters, as well as building and site design. We are subject to various fees and charges of government authorities designed to defray the cost of providing certain governmental services and improvements. We may be subject to additional costs and delays or may be precluded entirely from building projects because of “no-growth” or “slow-growth” initiatives, building permit ordinances, building moratoriums, or similar government regulations that could be imposed in the future due to health, safety, welfare, or environmental concerns. We must also obtain licenses, permits, and approvals from government agencies to engage in certain activities, the granting or receipt of which are beyond our control, and could cause delays in our homebuilding projects.

We are also subject to a variety of local, state, and federal statutes, ordinances, rules and regulations concerning the protection of health and the environment. Environmental laws or permit restrictions may result in project delays, may cause substantial compliance and other costs and may prohibit or severely restrict development in certain environmentally sensitive regions or geographic areas. Environmental regulations can also have an adverse impact on the availability and price of certain raw materials, such as lumber.

We continue to consider growth or expansion of our operations which could have a material adverse effect on our cash flows or profitability.

We may continue to consider growth or expansion of our operations in our current markets or in other areas of the country. Our expansion into new or existing markets could have a material adverse effect on our cash flows or profitability. The magnitude, timing and nature of any future expansion will depend on a number of factors, including suitable acquisition candidates, the negotiation of acceptable terms, our financial capabilities and general economic and business conditions. New acquisitions may result in the incurrence of additional debt, some of which could be secured, and therefore, structurally senior to the notes. Acquisitions also involve numerous risks, including difficulties in the assimilation of the acquired company’s operations, the incurrence of unanticipated liabilities or expenses, the diversion of management’s attention from other business concerns, risks of entering markets in which we have limited or no direct experience, and the potential loss of key employees of the acquired company.

We are dependent on the services of certain key employees and the loss of their services could harm our business.

Our success largely depends on the continuing services of certain key employees, including our Co-Chief Executive Officers, Steven J. Hilton and John R. Landon, and our continued favorable development depends on our ability to attract and retain qualified personnel. We have employment agreements with Messrs. Hilton and Landon, but we do not have an employment agreement with certain other key employees. We believe that Steven J. Hilton and John R. Landon each possess valuable industry knowledge and experience and leadership abilities that would be difficult in the short term to replicate. The loss of key employees could harm our operations and business plans.

We depend on the continued availability and satisfactory performance of our subcontractors which, if unavailable, could have a material adverse effect on our business.

We conduct our construction operations only as a general contractor. Virtually all architectural and construction work is performed by unaffiliated third-party subcontractors. As a consequence, we depend on the continued availability of and satisfactory performance by these subcontractors for the design and construction of our homes. We cannot assure you that there will be sufficient availability of and satisfactory performance by these unaffiliated third-party subcontractors. In addition, inadequate subcontractor resources could have a material adverse affect on our business.

Our future operating results may be adversely impacted by high inflation.

We, like other homebuilders, may be adversely affected during periods of high inflation, mainly because of higher land and construction costs. Also, higher mortgage interest rates may significantly affect the affordability of mortgage financing to prospective buyers. Inflation also increases our cost of financing, materials and labor and could cause our financial results or growth to decline, which could impact the value of the notes and the cash flow available to service the notes. We attempt to pass cost increases on to our customers through higher sales prices. To date, inflation has not had a material adverse effect on our results of operations; however, inflation could impact our future operating results.

Our business and operating results could be adversely affected by natural disasters.

We have significant homebuilding operations in Texas and California. Some of our markets in Texas occasionally experience severe weather conditions, such as tornadoes or hurricanes. California has experienced a significant number of earthquakes, flooding, landslides and other natural disasters in recent years. We do not insure against some of these risks. These occurrences could damage or destroy some of our homes under construction or our building lots, which may result in losses that exceed our insurance coverage. We could also suffer significant construction delays or substantial fluctuations in the pricing or availability of building materials. Any of these events could cause a decrease in our revenue, cash flow and earnings.

Recent accounting pronouncements could affect our accounting practices.

The Financial Accounting Standards Board, or FASB, recently issued FIN 46R, which governs “variable interest entities” in a way that impacts our ability to use rolling option contracts and even long-term purchase agreements to control land for future development. In order to maintain these interests as “off-balance sheet”, as we have historically done, we may need to structure our transactions differently than we have in the past, and will need to limit transactions to sellers that meet certain requirements, some of which could impact our ability to buy land. In addition, we may need to record more land and corresponding liabilities on our balance sheet, which may negatively affect how lenders and investors perceive our financial condition.

Acts of war may seriously harm our business.

Acts of war or any outbreak or escalation of hostilities between the United States and any foreign power, including the armed conflict with Iraq, may cause disruption to the economy, our company, our employees and our customers, which could impact our revenue, cost and expenses, and financial condition.

Important factors that could cause our actual results to differ materially from the forward-looking statements we make in this prospectus are set forth in this Risk Factors section.

Risks Associated with the Notes

Our substantial level of indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations on the notes.

As of April 30, 2004, we had approximately \$418.3 million (including unamortized premium of approximately \$8 million) of indebtedness. In addition, subject to restrictions in the indenture for the notes, the indenture for our 9 3/4% senior notes due 2011 and our senior unsecured credit facility, we may incur additional indebtedness. The high level of our indebtedness could have important consequences to you, including the following:

- our ability to obtain additional financing for working capital, capital expenditures, acquisitions or general corporate purposes may be impaired;
- we must use a substantial portion of our cash flow from operations to pay interest and principal on the notes and other indebtedness, which will reduce the funds available to us for other purposes such as capital expenditures;
- we have a higher level of indebtedness than some of our competitors, which may put us at a competitive disadvantage and reduce our flexibility in planning for, or responding to, changing conditions in our industry, including increased competition; and
- we are more vulnerable to economic downturns and adverse developments in our business.

We expect to obtain the money to pay our expenses and to pay the principal and interest on our senior debt from cash flow from our operations. Our annual debt service requirements for our 9 3/4% senior notes due 2011 and the exchange notes offered hereby is approximately \$36.4 million. Because these notes carry a fixed rate of interest, we are not subject to interest rate risk for these obligations. Our annual debt service requirements for our senior unsecured credit facility depends on a number of factors, including the level of borrowings under the facility and interest rates. The scheduled maturity for the credit facility is May 2007. As of April 30, 2004, no borrowings were outstanding under our unsecured credit facility. Our ability to meet our expenses thus depends on our future performance, which will be affected by financial, business, economic and other factors. We will not be able to control many of these factors, such as economic conditions in the markets where we operate and pressure from competitors.

We cannot be certain that our cash flow will be sufficient to allow us to pay principal and interest on our debt, including the notes, and meet our other obligations. If we do not have sufficient funds, we may be required to refinance all or part of our existing debt, including the notes, sell assets or borrow more money. We cannot guarantee that we will be able to do so on terms acceptable to us, if at all. In addition, the terms of our existing or future debt agreements may restrict us from pursuing any of these alternatives.

The indenture for the notes, the indenture for our 9 3/4% senior notes due 2011 and our senior unsecured credit facility impose significant operating and financial restrictions, which may prevent us from capitalizing on business opportunities and taking some corporate actions.

The indenture for the notes, the indenture for our 9 3/4% senior notes due 2011 and our senior unsecured credit facility impose significant operating and financial restrictions on us. These restrictions limit the ability of us and our subsidiaries, among other things, to:

- incur additional indebtedness or liens;
- pay dividends or make other distributions;

- repurchase our stock;
- make investments;
- sell assets;
- enter into agreements restricting our subsidiaries' ability to pay dividends;
- enter into transactions with affiliates; and
- consolidate, merge or sell all or substantially all of our assets.

In addition, the indenture for the notes and the indenture for our 9 3/4% senior notes due 2011 require us to maintain a minimum consolidated tangible net worth and our senior unsecured credit facility requires us to maintain other specified financial ratios. We cannot assure you that these covenants will not adversely affect our ability to finance our future operations or capital needs or to pursue available business opportunities. A breach of any of these covenants or our inability to maintain the required financial ratios could result in a default in respect of the related indebtedness. If a default occurs, the relevant lenders could elect to declare the indebtedness, together with accrued interest and other fees, to be immediately due and payable.

We may not be able to satisfy our obligations to holders of the notes upon a change of control or a decline in our consolidated tangible net worth.

Upon the occurrence of a "change of control," as defined in the indenture for the notes, each holder of the notes offered by this prospectus will have the right to require us to purchase the notes at a price equal to 101% of the principal amount, together with any accrued interest and liquidated damages, if any, to the date of purchase. Our failure to purchase, or give notice of purchase of, the notes would be a default under our other debt agreements. In addition, a change of control may constitute an event of default under our senior unsecured credit facility. A default under our senior unsecured credit facility could result in an event of default under the indenture if the lenders accelerate the debt under our credit facility.

In addition, if our consolidated tangible net worth falls below \$60.0 million for any two consecutive fiscal quarters, we are required to make an offer to purchase up to 10% of the notes then outstanding at a price equal to 100% of the principal amount, together with any accrued interest and liquidated damages, if any, to the date of purchase. As of March 31, 2004 our consolidated tangible net worth was approximately \$345.5 million.

If either event occurs, we may not have enough assets to satisfy all obligations under our debt agreements. In order to satisfy our obligations we could seek to refinance the indebtedness under these agreements or obtain a waiver from the lenders or you as a holder of the notes. We cannot assure you that we would be able to obtain a waiver or refinance our indebtedness on terms acceptable to us, if at all.

There is uncertainty about the meaning of the phrase "all or substantially all" under applicable laws in connection with determining whether a change of control has occurred.

One of the events that triggers our obligation to repurchase the notes upon a change in control is the sale of all or substantially all of our assets. The phrase "all or substantially all" as used in the indenture varies according to the facts and circumstances of the subject transaction, has no clearly established meaning under the law that governs the indenture and is subject to judicial interpretation. In certain circumstances, there may be a degree of uncertainty in ascertaining whether a particular transaction would involve a disposition of "all or substantially all" of our assets, and therefore, it may be unclear as to whether a change of control has occurred and whether you have the right to require us to repurchase the notes.

We could enter into transactions that would not constitute a change of control giving rise to an obligation to repurchase the notes, but that could increase the amount of our indebtedness outstanding.

The indenture for the notes, the indenture for our 9 3/4% senior notes due 2011 and the agreement for our senior unsecured credit facility impose significant restrictions on our ability to incur additional indebtedness or liens, make investments, and sell assets, among others. In addition, the indenture for the notes imposes obligations on us to offer to repurchase the notes if we enter into a transaction that constitutes a change of control. Nevertheless, we could, in the future, enter into transactions such as acquisitions, refinancings or other recapitalizations or highly leveraged transactions that would not constitute a change of control giving rise to an obligation by us to repurchase the notes, but that could increase the amount of indebtedness outstanding. Such transactions could affect our capital structure or credit ratings or otherwise affect the holders of the notes.

The guarantees may be voided under specific legal circumstances.

The notes are guaranteed by all of our existing subsidiaries (other than our two mortgage broker subsidiaries) and certain future subsidiaries. The guarantees may be subject to review under U.S. federal bankruptcy law and comparable provisions of state fraudulent conveyance laws if a bankruptcy or reorganization case or lawsuit is commenced by or on behalf of our or one of a guarantor's unpaid creditors. Under these laws, if a court were to find in such a bankruptcy or reorganization case or lawsuit that, at the time any guarantor issued a guarantee of the notes:

- it issued the guarantee to delay, hinder or defraud present or future creditors; or
- it received less than reasonably equivalent value or fair consideration for issuing the guarantee at the time it issued the guarantee and:
 - it was insolvent or rendered insolvent by reason of issuing the guarantee; or
 - it was engaged, or about to engage, in a business or transaction for which its remaining unencumbered assets constituted unreasonably small capital to carry on its business; or
 - it intended to incur, or believed that it would incur, debts beyond its ability to pay as they mature;

then the court could void the obligations under the guarantee, subordinate the guarantee of the notes to that guarantor's other debt or take other action detrimental to holders of the notes and the guarantees of the notes.

The measures of insolvency for purposes of fraudulent transfer laws vary depending upon the law of the jurisdiction that is being applied in any proceeding to determine whether a fraudulent transfer had occurred. Generally, however, a person would be considered insolvent if, at the time it incurred the debt:

- the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they become due.

We cannot be sure as to the standard that a court would use to determine whether or not a guarantor was solvent at the relevant time, or, regardless of the standard that the court uses, that the issuance of the guarantees would not be voided or the guarantees would not be subordinated to the guarantors' other debt. If such a case were to occur, the guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit, and only indirectly for the benefit of the guarantor, the obligations of the applicable guarantor were incurred for less than fair consideration.

Based upon financial and other information currently available to us, we believe that the debt evidenced by the guarantees was incurred for proper purposes and in good faith. We believe that the guarantors:

- are solvent and will continue to be solvent after issuing the guarantees;
- will have sufficient capital for carrying on the business we intend to conduct after this exchange offer is completed; and
- will be able to service their debts as they come due.

There is no established trading market for the exchange notes and you may not be able to sell the notes quickly or at the price that you paid.

We expect that there will be a limited trading market for the exchange notes, if any. Although the exchange notes will be registered, we do not intend to list the exchange notes on any securities exchange or to arrange for quotation on any automated dealer quotation systems. The initial purchaser has advised us that it intends to make a market in the outstanding notes and the exchange notes, but it is not obligated to do so. The initial purchaser may discontinue any market making in the outstanding notes or exchange notes at any time, in its sole discretion. As a result, we cannot assure you as to the liquidity of any trading market for the exchange notes.

We also cannot assure you that you will be able to sell your exchange notes at a particular time or that the prices that you receive when you sell will be favorable. We also cannot assure you as to the level of liquidity of the trading market for the exchange notes or, in the case of any holders of outstanding notes that do not exchange them, the trading market for the notes following the offer to exchange the outstanding notes for exchange notes. Future trading prices of the outstanding notes and exchange notes will depend on many factors, including:

- our operating performance and financial condition;
- our ability to complete the offer to exchange the notes for the exchange notes;
- the interest of securities dealers in making a market; and
- the market for similar securities.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused volatility in prices. It is possible that the market for the outstanding notes and, if issued, the exchange notes, will be subject to disruptions. Any disruptions may have a negative effect on noteholders, regardless of our prospects and financial performance.

There may be adverse consequences to holders of outstanding notes that do not tender their outstanding notes pursuant to the exchange offer.

If you fail to properly exchange your outstanding notes for exchange notes, you will continue to hold outstanding notes subject to transfer restrictions, and the liquidity of the trading market for any untendered outstanding notes may be substantially limited.

We will only issue exchange notes in exchange for outstanding notes that you timely and properly tender. You should allow sufficient time to ensure timely delivery of the outstanding notes, and you should carefully follow the instructions on how to tender your outstanding notes set forth under the “The Exchange Offer — Procedures for Tendering” and in the letter of transmittal that accompanies this prospectus. Neither we nor the exchange agent are required to notify you of any defects or irregularities relating to your tender of notes.

The holders of outstanding notes that do not exchange them pursuant to this exchange offer will continue to be subject to restrictions on the transfer of the outstanding notes because the issuance of the outstanding notes was not registered under the Securities Act or registered or qualified under any state securities laws. We do not currently anticipate that, except in certain limited circumstances, we will register the outstanding notes under the Securities Act. To the extent that we exchange outstanding notes a result of this exchange offer, the ability to trade untendered outstanding notes may be adversely affected.

USE OF PROCEEDS

We will receive no proceeds from the exchange of the exchange notes for the outstanding notes pursuant to the exchange offer. We used the proceeds from the sale of the outstanding notes to repay our senior unsecured credit facility and to invest in short-term investments, of which approximately \$129.4 million was used to pay down our senior unsecured credit facility. See “Description of Certain Indebtedness” for information regarding our existing debt.

- (1) 2001 earnings include a \$383 loss related to the net effect of early extinguishments of long-term debt. Previously this amount, net of the tax effect of \$149 was reported as an extraordinary item. We have reclassified this loss as general and administrative expense and income tax benefit, respectively, to conform to the requirements of SFAS 145, which was effective for fiscal years beginning after May 15, 2002.
- (2) Interest incurred is the amount of interest paid and accrued (whether expensed or capitalized) during such period, including debt-related fees and amortization of deferred financing costs.
- (3) EBITDA represents earnings before interest expense, interest amortized to cost of sales, income taxes, depreciation, amortization and extraordinary items. EBITDA is presented here because it is a widely accepted financial indicator used by investors and analysts to analyze and compare homebuilding companies on the basis of operating performance. EBITDA as presented may not be comparable to similarly titled measures reported by other companies because not all companies necessarily calculate EBITDA in an identical manner and, therefore, is not necessarily an accurate means of comparison between companies. EBITDA is not intended to represent cash flows for the period or funds available for management's discretionary use nor has it been presented as an alternative to operating income or as an indicator of operating performance and it should not be considered in isolation or as a substitute for measures of performance prepared in accordance with accounting principles generally accepted in

the United States of America. The reconciliation of EBITDA to net earnings for each of the respective periods shown is as follows:

- (4) EBITDA margin is calculated by dividing EBITDA by total sales revenue.
- (5) For purposes of computing the ratio of earnings to fixed charges, "earnings" consist of income before income taxes and extraordinary items plus fixed charges less capitalized interest. "Fixed charges" consist of interest expense including amortization of deferred financing costs, one-half of rent expense, which is deemed to be representative of an interest factor, and capitalized interest.
- (6) EBITDA, operating data and operating ratios are unaudited.
- (7) On a quarterly basis, this is not a meaningful calculation.

DESCRIPTION OF CERTAIN INDEBTEDNESS

The following is a summary of certain of our and our subsidiaries' indebtedness.

Senior Unsecured Credit Facility

We have a credit agreement which provides for a \$400 million senior unsecured revolving credit facility. Guaranty Bank is the administrative agent for the facility, which matures in May 2007, subject to extension provisions.

At March 31, 2004, there was a balance of approximately \$93.4 million outstanding under our senior unsecured revolving credit facility and approximately \$41.5 million was outstanding in letters of credit and guarantees that collateralize our obligations under various land purchase and other contracts. After considering our most restrictive bank covenants, our borrowing availability under the bank credit facility was approximately \$137 million at March 31, 2004, as determined by borrowing base limitations defined by our agreement with the lending banks.

The interest rate on this credit facility is based upon either the agent bank's quoted base rate or the eurodollar rate, plus an applicable margin that is determined by the level of a predefined financial leverage ratio. In addition, we incur commitment fees on the unused portion of the revolver that range from 0.275% to 0.50% per annum. The interest rate for outstanding balances under the bank credit facility at March 31, 2004 was at prime (4.0%) or at LIBOR (approximately 1.12%) plus two percent.

This credit facility contains certain financial and other covenants, including covenants:

- requiring us to maintain tangible net worth of at least \$225 million plus 50% of net income earned since January 1, 2004 plus 75% of the aggregate net increase in tangible net worth resulting from the sale of capital stock and other equity interests (as defined);
- prohibiting our ratio of indebtedness (including accrued expenses) to tangible net worth from being greater than 2.25 to 1;
- requiring us to maintain a ratio of EBITDA (including interest amortized to cost of sales) to interest incurred (as defined) of at least 2.00 to 1;
- prohibiting the net book value of our land and lots where construction of a home has not commenced to exceed 125% of tangible net worth and prohibiting the net book value of our raw land where grading or infrastructure improvements have not begun to exceed 20% of tangible net worth;
- limiting the number of unsold housing units and model units that we may have in our inventory at the end of any fiscal quarter as follows:
 - (i) unsold homes cannot exceed 25% of the number of home closings within the four fiscal quarters ending on such date; and
 - (ii) model homes cannot exceed 10% of the number of home closings within the four fiscal quarters ending on such date; and
- prohibiting us from entering into any sale and leaseback transaction, excluding the sale and leaseback of model homes and prohibiting us from creating or incurring any off-balance sheet liability. For purposes of our credit facility, off-balance sheet liabilities include:
 - certain liabilities arising under asset securitization transactions;

- monetary obligations under synthetic leases, tax retention or off-balance sheet lease transactions that upon the application of any debtor relief law to us would be characterized as indebtedness;
- any other monetary obligation with respect to any transaction which upon the application of any debtor relief law to us would be characterized as indebtedness or which is the functional equivalent of or takes the place of borrowing but which does not constitute a liability on our consolidated balance sheet.

Notwithstanding the above, our credit facility specifically provides that liabilities (i) under rolling options and similar contracts for the acquisition of real property and (ii) arising under model home leases shall not be deemed off-balance sheet liabilities.

Senior Notes Due 2011

In May 2001, we issued \$165 million in principal amount of 9 3/4% senior notes due 2011. In September 2001, we purchased and retired \$10 million in principal amount of our outstanding 9 3/4% senior notes. The purchases were made at 93.25% of par at a gain of approximately \$348,000, which net of related income tax effect of \$136,000, resulted in a net gain of \$212,000.

Through add-on financings, in February 2003 we increased the aggregate principal amount of our 9 3/4% senior notes due 2011 by approximately \$51.6 million (including premium of \$1.6 million) and in September 2003 we increased the aggregate principal amount of our senior notes by approximately \$81.8 million (including premium of \$6.8 million), the proceeds of which were used to pay down our senior unsecured revolving credit facility.

The indenture for our 9 3/4% our senior notes due 2011, which is substantially similar to the indenture for the notes offered hereby, requires us to comply with a number of covenants that restrict certain transactions, including covenants:

- limiting the amount of additional indebtedness we can incur unless after giving effect to such additional indebtedness, either (i) our fixed charge coverage ratio would be at least 2.0 to 1.0 or (ii) our ratio of consolidated debt to consolidated tangible net worth would be less than 3.0 to 1.0, provided, however, this limitation does not apply to most types of inter-company indebtedness, purchase money indebtedness up to \$15 million, non-recourse indebtedness and other indebtedness up to \$15 million;
- generally limiting the amount of dividends, redemptions of equity interests and certain investments we can make to \$10 million plus (i) 50% of our net income since May 30, 2001 plus (ii) 100% of the net cash proceeds from the sale of qualified equity interests, plus other items and subject to other exceptions;
- requiring us to maintain tangible net worth of at least \$60 million;
- limiting our ability to incur or create certain liens; and
- placing limitations on the sale of assets, mergers and consolidations and transactions with affiliates.

Other Debt

We have other land acquisition seller carryback financing totaling \$600,000 at March 31, 2004, which is secured by first deeds of trust on real estate. Interest on this facility is at a fixed rate of 7% per annum. Principal and interest payments are due at July 3, 2004.

DESCRIPTION OF THE EXCHANGE NOTES

As used below in this “Description of the Exchange Notes” section, the “**Issuer**” means Meritage Corporation, a Maryland corporation, and its successors, but not any of its subsidiaries. The Issuer will issue the exchange notes described in this prospectus under an indenture, dated as of April 21, 2004, among the Issuer, the Guarantors and Wells Fargo Bank, National Association, as trustee. The terms of the exchange notes include those set forth in the indenture and those made part of the indenture by reference to the Trust Indenture Act. You may obtain a copy of the indenture from the Issuer at its address set forth elsewhere in this prospectus.

The following is a summary of the material terms and provisions of the exchange notes. As used in this “Description of the Exchange Notes”, the terms “Notes” and “notes” mean the series of the Issuer’s senior debt securities issued under the indenture designated as its 7% Senior Notes due 2014, in each case except as otherwise expressly provided or as the context otherwise requires. The following summary does not purport to be a complete description of the Notes and is subject to the detailed provisions of the indenture. You can find definitions of certain terms used in this description under the heading “— Certain Definitions.”

Principal, Maturity and Interest

The Notes will mature on May 1, 2014. The Notes will bear interest at the rate shown on the cover page of this prospectus, payable on May 1 and November 1 of each year, commencing on November 1, 2004, to holders of record at the close of business on April 15 or October 15, as the case may be, immediately preceding the relevant interest payment date. Interest on the Notes will be computed on the basis of a 360-day year of twelve 30-day months.

The Notes will be issued in registered form, without coupons, and in denominations of \$1,000 and integral multiples of \$1,000.

The aggregate principal amount of the Notes is \$130 million. The Issuer may issue an unlimited amount of notes having identical terms and conditions to the Notes being issued in this offering (“**Additional Notes**”), subject to compliance with the “Limitations on Additional Indebtedness” covenant described below. Any Additional Notes will be part of the same issue as the notes being offered in the exchange offer and will vote on all matters as one class with the Notes being offered in the exchange offer, including, without limitation, waivers, amendments, redemptions and offers to purchase. For purposes of the “Description of Notes,” except for the covenant described under “— Certain Covenants — Limitations on Additional Indebtedness,” references to the Notes include Additional Notes, if any.

Methods of Receiving Payments on the Notes

If a holder has given wire transfer instructions to the Issuer at least ten business days prior to the applicable payment date, the Issuer will make all payments on such holder’s Notes in accordance with those instructions. Otherwise, payments on the Notes will be made at the office or agency of the paying agent and registrar for the Notes within the City and State of New York unless the Issuer elects to make interest payments by check mailed to the holders at their addresses set forth in the register of holders.

Ranking

The Notes are general unsecured obligations of the Issuer. The Notes rank senior in right of payment to all future obligations of the Issuer that are, by their terms, expressly subordinated in right of payment to the Notes and *pari passu* in right of payment with all existing and future unsecured obligations of the Issuer that are not so subordinated. Each note guarantee is a general unsecured obligation of the Guarantor thereof and ranks senior in right of payment to all future obligations of such Guarantor that are, by their terms, expressly subordinated in right of payment to such note guarantee and *pari passu* in right

of payment with all existing and future unsecured obligations of such Guarantor that are not so subordinated.

The Notes and each note guarantee are effectively subordinated to secured Indebtedness of the Issuer and the applicable Guarantor to the extent of the value of the assets securing such Indebtedness. Although the indenture contains limitations on the amount of additional secured Indebtedness that the Issuer and the Restricted Subsidiaries may incur, under certain circumstances, the amount of this Indebtedness could be substantial. See “— Certain Covenants — Limitations on Additional Indebtedness” and “— Limitations on Liens.”

The Notes are also effectively subordinated to all existing and future obligations, including Indebtedness, of any Unrestricted Subsidiaries. Claims of creditors of Unrestricted Subsidiaries, including trade creditors, will generally have priority as to the assets of these Subsidiaries over the claims of the Issuer and the holders of the Issuer’s Indebtedness, including the Notes.

Note Guarantees

The Issuer’s obligations under the Notes and the indenture are jointly and severally guaranteed by each Restricted Subsidiary.

Not all of our Subsidiaries will guarantee the Notes. Unrestricted Subsidiaries will not be Guarantors. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, these non-guarantor Subsidiaries will pay the holders of their debts and their trade creditors before they will be able to distribute any of their assets to us.

As of the date of this prospectus, all of our Subsidiaries, other than MTH Mortgage, LLC and Texas Home Mortgage Corporation, which conduct our mortgage broker business, are “Restricted Subsidiaries,” and all of our Restricted Subsidiaries are Guarantors. However, under the circumstances described below under the subheading “— Certain Covenants — Limitations on Designation of Unrestricted Subsidiaries,” the Issuer will be permitted to designate some of our other Subsidiaries as “Unrestricted Subsidiaries.” The effect of designating a Subsidiary as an “Unrestricted Subsidiary” will be:

- an Unrestricted Subsidiary will not be subject to many of the restrictive covenants in the indenture;
- a Subsidiary that has previously been a Guarantor and that is designated an Unrestricted Subsidiary will be released from its note guarantee; and
- the assets, income, cash flow and other financial results of an Unrestricted Subsidiary will not be consolidated with those of the Issuer for purposes of calculating compliance with the restrictive covenants contained in the Indenture.

The obligations of each Guarantor under its note guarantee will be limited to the maximum amount as will, after giving effect to all other contingent and fixed liabilities of such Guarantor (including, without limitation, any guarantees under the Credit Facilities permitted under clause (1) of “— Certain Covenants — Limitations on Additional Indebtedness”) and after giving effect to any collections from or payments made by or on behalf of any other Guarantor in respect of the obligations of such other Guarantor under its note guarantee or pursuant to its contribution obligations under the indenture, result in the obligations of such Guarantor under its note guarantee not constituting a fraudulent conveyance or fraudulent transfer under federal or state law. Each Guarantor that makes a payment for distribution under its note guarantee is entitled to a contribution from each other Guarantor in a *pro rata* amount based on adjusted net assets of each Guarantor.

In the event of a sale or other disposition of all of the assets of any Guarantor, by way of merger, consolidation or otherwise, or a sale or other disposition of all of the Equity Interests of any Guarantor then held by the Issuer and the Restricted Subsidiaries, then that Guarantor will be released and relieved of any obligations under its note guarantee; *provided* that the Net Available Proceeds of such sale or other disposition shall be applied in accordance with the applicable provisions of the indenture, to the extent

required thereby. See “— Certain Covenants — Limitations on Asset Sales.” In addition, the indenture provides that any Guarantor that is designated as an Unrestricted Subsidiary or that otherwise ceases to be a Guarantor, in each case in accordance with the provisions of the indenture, will be released from its note guarantee upon effectiveness of such designation or when it first ceases to be a Restricted Subsidiary, as the case may be.

Optional Redemption

Except as set forth below, the Notes may not be redeemed prior to May 1, 2009. At any time on or after May 1, 2009, the Issuer, at its option, may redeem the Notes, in whole or in part, at the redemption prices (expressed as percentages of principal amount) set forth below, together with accrued and unpaid interest thereon, if any, to the redemption date, if redeemed during the 12-month period beginning May 1 of the years indicated:

Year	Optional Redemption Price
2009	103.500%
2010	102.333%
2011	101.167%
2012 and thereafter	100.000%

At any time prior to May 1, 2007, the Issuer may redeem up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of one or more Qualified Equity Offerings at a redemption price equal to 107% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest thereon, if any, to the date of redemption; *provided* that (1) at least 65% of the aggregate principal amount of Notes issued under the indenture remains outstanding immediately after the occurrence of such redemption and (2) the redemption occurs within 90 days of the date of the closing of any such Qualified Equity Offering.

The Issuer may acquire Notes by means other than a redemption, whether pursuant to an issuer tender offer, open market purchase or otherwise, so long as the acquisition does not otherwise violate the terms of the indenture.

Selection and Notice of Redemption

In the event that less than all of the Notes are to be redeemed at any time pursuant to an optional redemption, selection of the Notes for redemption will be made by the trustee in compliance with the requirements of the principal national securities exchange, if any, on which the Notes are listed or, if the Notes are not then listed on a national security exchange, on a *pro rata* basis, by lot or by such method as the trustee shall deem fair and appropriate; *provided, however*, that no Notes of a principal amount of \$1,000 or less shall be redeemed in part. In addition, if a partial redemption is made pursuant to the provisions described in the second paragraph under “— Optional Redemption,” selection of the Notes or portions thereof for redemption shall be made by the trustee only on a *pro rata* basis or on as nearly a *pro rata* basis as is practicable (subject to the procedures of The Depository Trust Company), unless that method is otherwise prohibited.

Notice of redemption will be mailed by first-class mail at least 30 but not more than 60 days before the date of redemption to each holder of Notes to be redeemed at its registered address. If any Note is to be redeemed in part only, the notice of redemption that relates to that Note will state the portion of the principal amount of the Note to be redeemed. A new Note in a principal amount equal to the unredeemed portion of the Note will be issued in the name of the holder of the Note upon cancellation of the original Note. On and after the date of redemption, interest will cease to accrue on Notes or portions thereof called for redemption so long as the Issuer has deposited with the paying agent for the Notes funds in satisfaction of the redemption price (including accrued and unpaid interest on the Notes to be redeemed) pursuant to the indenture.

Change of Control

Upon the occurrence of any Change of Control, each holder will have the right to require that the Issuer purchase that holder's Notes for a cash price (the "Change of Control Purchase Price") equal to 101% of the principal amount of the Notes to be purchased, plus accrued and unpaid interest thereon, if any, to the date of purchase.

Within 30 days following any Change of Control, the Issuer will mail, or caused to be mailed, to the holders a notice:

- (1) describing the transaction or transactions that constitute the Change of Control;
- (2) offering to purchase, pursuant to the procedures required by the indenture and described in the notice, on a date specified in the notice (which shall be a business day not earlier than 30 days nor later than 60 days from the date the notice is mailed) and for the Change of Control Purchase Price, all Notes properly tendered by such holder pursuant to such change of control offer; and
- (3) describing the procedures that holders must follow to accept the change of control offer. The change of control offer is required to remain open for at least 20 business days or for such longer period as is required by law.

The Issuer will publicly announce the results of the change of control offer on or as soon as practicable after the date of purchase.

If a change of control offer is made, there can be no assurance that the Issuer will have available funds sufficient to pay for all or any of the Notes that might be delivered by holders seeking to accept the change of control offer. In addition, we cannot assure you that in the event of a Change of Control the Issuer will be able to obtain the consents necessary to consummate a change of control offer from the lenders under agreements governing outstanding Indebtedness which may prohibit the offer.

The provisions described above that require us to make a change of control offer following a Change of Control will be applicable regardless of whether any other provisions of the indenture are applicable. Except as described above with respect to a Change of Control, the indenture does not contain provisions that permit the holders of the Notes to require that the Issuer purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

The Issuer's obligation to make a change of control offer will be satisfied if a third party makes the change of control offer in the manner and at the times and otherwise in compliance with the requirements applicable to a change of control offer made by the Issuer and purchases all Notes properly tendered and not withdrawn under the change of control offer.

A "Change of Control" includes certain sales of all or substantially all of the assets of the Issuer and the Restricted Subsidiaries. The phrase "all or substantially all" as used in the indenture (including as set forth under "— Certain Covenants — Limitations on Mergers, Consolidations, Etc." below) varies according to the facts and circumstances of the subject transaction, has no clearly established meaning under New York law (which governs the indenture) and is subject to judicial interpretation. Accordingly, in certain circumstances there may be a degree of uncertainty in ascertaining whether a particular transaction would involve a disposition of "all or substantially all" of the assets of the Issuer, and therefore it may be unclear as to whether a Change of Control has occurred and whether the holders have the right to require the Issuer to purchase Notes.

The Issuer will comply with applicable tender offer rules, including the requirements of Rule 14e-1 under the Exchange Act and any other applicable laws and regulations in connection with the purchase of Notes pursuant to a change of control offer. To the extent that the provisions of any securities laws or regulations conflict with the "Change of Control" provisions of the indenture, the Issuer shall comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the "Change of Control" provisions of the indenture by virtue of this compliance.

Certain Covenants

The indenture contains, among others, the following covenants:

Limitations on Additional Indebtedness

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur any Indebtedness; *provided* that the Issuer or any Restricted Subsidiary may incur additional Indebtedness (including Acquired Indebtedness) if no Default shall have occurred and be continuing at the time of or as a consequence of the incurrence of the Indebtedness and if, after giving effect thereto, either (a) the Consolidated Fixed Charge Coverage Ratio would be at least 2.00 to 1.00 or (b) the ratio of Consolidated Indebtedness to Consolidated Tangible Net Worth would be less than 3.00 to 1.00 (either (a) or (b), the **"Ratio Exception"**).

Notwithstanding the above, so long as no Default shall have occurred and be continuing at the time of or as a consequence of the incurrence of the following Indebtedness, each of the following shall be permitted (the **"Permitted Indebtedness"**):

- (1) Indebtedness of the Issuer and any Restricted Subsidiary under the Credit Facilities in an aggregate amount at any time outstanding (whether incurred under the Ratio Exception or as Permitted Indebtedness) not to exceed the greater of (x) \$165.0 million and (y) the amount of the Borrowing Base as of the date of such incurrence;
- (2) the Notes and the note guarantees issued on the Issue Date;
- (3) Indebtedness of the Issuer and the Restricted Subsidiaries to the extent outstanding on the Issue Date (other than Indebtedness referred to in clauses (1) and (2) above, and after giving effect to the intended use of proceeds of the Notes);
- (4) Indebtedness of the Issuer and the Restricted Subsidiaries under Hedging Obligations; *provided* that (a) such Hedging Obligations relate to payment obligations on Indebtedness otherwise permitted to be incurred by this covenant, and (b) the notional principal amount of such Hedging Obligations at the time incurred does not exceed the principal amount of the Indebtedness to which such Hedging Obligations relate;
- (5) Indebtedness of the Issuer owed to a Restricted Subsidiary and Indebtedness of any Restricted Subsidiary owed to the Issuer or any other Restricted Subsidiary; *provided, however*, that (a) any Indebtedness of the Issuer owed to a Restricted Subsidiary is unsecured and subordinated, pursuant to a written agreement, to the Issuer's obligation, under the indenture and the Notes and (b) upon any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or such Indebtedness being owed to any person other than the Issuer or a Restricted Subsidiary, the Issuer or such Restricted Subsidiary, as applicable, shall be deemed to have incurred Indebtedness not permitted by this clause (5);
- (6) Indebtedness in respect of bid, performance or surety bonds issued for the account of the Issuer or any Restricted Subsidiary in the ordinary course of business, including guarantees or obligations of the Issuer or any Restricted Subsidiary with respect to letters of credit supporting such bid, performance or surety obligations (in each case other than for an obligation for money borrowed);
- (7) Purchase Money Indebtedness incurred by the Issuer or any Restricted Subsidiary, in an aggregate amount not to exceed at any time outstanding \$15.0 million;
- (8) Non-Recourse Indebtedness of the Issuer or any Restricted Subsidiary incurred for the acquisition, development and/or improvement of real property and secured by Liens only on such real property;
- (9) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently (except in the case of daylight overdrafts) drawn

against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within five business days of incurrence;

- (10) Indebtedness arising in connection with endorsement of instruments for deposit in the ordinary course of business;
- (11) Refinancing Indebtedness with respect to Indebtedness incurred pursuant to the Ratio Exception or clause (2) or (3) above; and
- (12) Indebtedness of the Issuer or any Restricted Subsidiary in an aggregate amount not to exceed \$15.0 million at any time outstanding.

For purposes of determining compliance with this covenant, in the event that an item of Indebtedness meets the criteria of more than one of the categories of Permitted Indebtedness described in clauses (1) through (12) above or is entitled to be incurred pursuant to the Ratio Exception, the Issuer shall, in its sole discretion, classify such item of Indebtedness and may divide and classify such Indebtedness in more than one of the types of Indebtedness described, except that Indebtedness outstanding under the Credit Facilities on the Issue Date shall be deemed to have been incurred under clause (1) above.

Limitations on Layering Indebtedness

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, incur any Indebtedness that is or purports to be by its terms (or by the terms of any agreement governing such Indebtedness) contractually subordinated to any other Indebtedness of the Issuer or of such Restricted Subsidiary, as the case may be, unless such Indebtedness is also by its terms (or by the terms of any agreement governing such Indebtedness) contractually made expressly subordinate to the Notes or the note guarantee of such Restricted Subsidiary, to the same extent and in the same manner as such Indebtedness is contractually subordinated to such other Indebtedness of the Issuer or such Restricted Subsidiary, as the case may be.

Limitations on Restricted Payments

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, make any Restricted Payment if at the time of such Restricted Payment:

- (1) a Default shall have occurred and be continuing or shall occur as a consequence thereof;
- (2) the Issuer cannot incur \$1.00 of additional Indebtedness pursuant to the Ratio Exception; or
- (3) the amount of such Restricted Payment, when added to the aggregate amount of all other Restricted Payments made after the Measurement Date (other than Restricted Payments made pursuant to clause (2), (3) or (5) of the next paragraph), exceeds the sum (the “**Restricted Payments Basket**”) of (without duplication):
 - (a) 50% of Consolidated Net Income for the period (taken as one accounting period) commencing on the first day of the first full fiscal quarter commencing after the Measurement Date to and including the last day of the fiscal quarter ended immediately prior to the date of such calculation for which consolidated financial statements are available (or, if such Consolidated Net Income shall be a deficit, minus 100% of such aggregate deficit), *plus*
 - (b) 100% of the aggregate net cash proceeds or the fair market value of any assets to be used in a Permitted Business (other than securities) received by the Issuer either (x) as contributions to the common equity of the Issuer after the Measurement Date or (y) from the issuance and sale of Qualified Equity Interests after the Measurement Date, other than to the extent any such proceeds are used to redeem Notes in accordance with the second paragraph under “— Optional Redemption,” *plus*

(c) the aggregate amount by which Indebtedness of the Issuer or any Restricted Subsidiary is reduced on the Issuer's balance sheet upon the conversion or exchange (other than by a Subsidiary of the Issuer) subsequent to the Measurement Date into Qualified Equity Interests (less the amount of any cash, or the fair value of assets, distributed by the Issuer or any Restricted Subsidiary upon such conversion or exchange), *plus*

(d) in the case of the disposition or repayment of or return on any Investment that was treated as a Restricted Payment made after the Measurement Date, an amount (to the extent not included in the computation of Consolidated Net Income) equal to the lesser of (i) the return of capital with respect to such Investment and (ii) the amount of such Investment that was treated as a Restricted Payment, in either case, less the cost of the disposition of such Investment and net of taxes, *plus*

(e) upon a redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary, the lesser of (i) the fair market value of the Issuer's proportionate interest in such Subsidiary immediately following such redesignation, and (ii) the aggregate amount of the Issuer's Investments in such Subsidiary to the extent such Investments reduced the amount available for subsequent Restricted Payments under this clause (3) and were not previously repaid or otherwise reduced, *plus*

(f) \$10.0 million.

The foregoing provisions will not prohibit:

(1) the payment by the Issuer or any Restricted Subsidiary of any dividend within 60 days after the date of declaration thereof, if on the date of declaration the payment would have complied with the provisions of the indenture;

(2) so long as no Default shall have occurred and be continuing at the time of or as a consequence of such redemption, the redemption of any Equity Interests of the Issuer or any Restricted Subsidiary in exchange for, or out of the proceeds of the substantially concurrent issuance and sale of, Qualified Equity Interests;

(3) so long as no Default shall have occurred and be continuing at the time of or as a consequence of such redemption, the redemption of Subordinated Indebtedness of the Issuer or any Restricted Subsidiary (a) in exchange for, or out of the proceeds of the substantially concurrent issuance and sale of, Qualified Equity Interests or (b) in exchange for, or out of the proceeds of the substantially concurrent incurrence of, Refinancing Indebtedness permitted to be incurred under the "Limitations on Additional Indebtedness" covenant and the other terms of the Indenture;

(4) so long as no Default shall have occurred and be continuing at the time of or as a consequence of such redemption, the redemption of Equity Interests of the Issuer held by officers, directors or employees or former officers, directors or employees (or their transferees, estates or beneficiaries under their estates), upon their death, disability, retirement, severance or termination of employment or service; *provided* that the aggregate cash consideration paid for all such redemptions shall not exceed \$2.0 million during any calendar year (with unused amounts in any calendar year being carried over to succeeding calendar years subject to a maximum of \$4.0 million in any calendar year); or

(5) repurchases of Equity Interests deemed to occur upon the exercise of stock options if the Equity Interests represents a portion of the exercise price thereof;

provided that no issuance and sale of Qualified Equity Interests pursuant to clause (2) or (3) above shall increase the Restricted Payments Basket, except to the extent the proceeds thereof exceed the amounts used to effect the transactions described therein.

Maintenance of Consolidated Tangible Net Worth

If the Issuer's Consolidated Tangible Net Worth declines below \$60.0 million at the end of any fiscal quarter, the Company must deliver an officers' certificate to the trustee within 55 days after the end of that fiscal quarter (110 days after the end of any fiscal year) to notify the trustee. If, on the last day of each of any two consecutive fiscal quarters (the last day of the second fiscal quarter being referred to as a "**Deficiency Date**"), the Issuer's Consolidated Tangible Net Worth is less than \$60.0 million, then the Issuer must make an offer to all holders of Notes to purchase 10% of the aggregate principal amount of the Notes originally issued (the "**Net Worth Offer Amount**") at a purchase price equal to 100% of the principal amount of the Notes, plus accrued and unpaid interest thereon, if any, to the date of purchase; *provided, however*, that no such net worth offer shall be required if, after the Deficiency Date but prior to the date the Issuer is required to make the net worth offer, capital in cash or Cash Equivalents is contributed for Qualified Equity Interests of the Issuer sufficient to increase the Issuer's Consolidated Tangible Net Worth after giving effect to such contribution to an amount equal to or above \$60.0 million.

The Issuer must make the net worth offer no later than 65 days after each Deficiency Date (120 days if such Deficiency Date is the last day of the Issuer's fiscal year). The net worth offer is required to remain open for a period of 20 business days following its commencement or for such longer period as required by law. The Issuer is required to purchase the Net Worth Offer Amount of the Notes on a designated date no later than five business days after the termination of the net worth offer, or if less than the Net Worth Offer Amount of Notes shall have been tendered, all Notes then tendered.

If the aggregate principal amount of Notes tendered exceeds the Net Worth Offer Amount, the Issuer is required to purchase the Notes tendered to *ipso rata* among the Notes tendered (with such adjustments as may be appropriate so that only Notes in denominations of \$1,000 and integral multiples thereof shall be purchased).

In no event will the failure of the Issuer's Consolidated Tangible Net Worth to equal or exceed \$60.0 million at the end of any fiscal quarter be counted toward the requirement to make more than one net worth offer. The Issuer may reduce the principal amount of Notes to be purchased pursuant to the net worth offer by subtracting 100% of the principal amount (excluding premium) of the Notes redeemed by the Issuer prior to the purchase (otherwise than under this provision). The Issuer, however, may not credit Notes that have been previously used as a credit against any obligation to repurchase Notes pursuant to this provision.

The Issuer will comply with applicable tender offer rules, including the requirements of Rule 14e-1 under the Exchange Act and any other applicable laws and regulations in connection with the purchase of Notes pursuant to a net worth offer. To the extent that the provisions of any securities laws or regulations conflict with the "Net Worth Offer" provisions of the indenture, the Issuer shall comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the "Net Worth Offer" provisions of the Indenture by virtue of this compliance.

If a net worth offer is made, there can be no assurance that the Issuer will have available funds sufficient to pay for all or any of the Notes that might be delivered by holders seeking to accept the net worth offer. In addition, we cannot assure you that the Issuer will be able to obtain the consents necessary to consummate a net worth offer from the lenders under agreements governing outstanding Indebtedness which may prohibit the offer.

The Issuer's Consolidated Tangible Net Worth was approximately \$345.5 million as of March 31, 2004.

Limitations on Dividend and Other Restrictions Affecting Restricted Subsidiaries

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create or otherwise cause or permit to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Restricted Subsidiary to:

- (a) pay dividends or make any other distributions on or in respect of its Equity Interests;
- (b) make loans or advances or pay any Indebtedness or other obligation owed to the Issuer or any other Restricted Subsidiary; or
- (c) transfer any of its assets to the Issuer or any other Restricted Subsidiary; except for:
 - (1) encumbrances or restrictions existing under or by reason of applicable law;
 - (2) encumbrances or restrictions existing under the indenture, the Notes and the note guarantees;
 - (3) non-assignment provisions of any contract or any lease entered into in the ordinary course of business;
 - (4) encumbrances or restrictions existing under agreements existing on the date of the indenture (including, without limitation, the Credit Facilities) as in effect on that date;
 - (5) restrictions on the transfer of assets subject to any Lien permitted under the indenture imposed by the holder of such Lien;
 - (6) restrictions on the transfer of assets imposed under any agreement to sell such assets permitted under the indenture to any person pending the closing of such sale;
 - (7) any instrument governing Acquired Indebtedness, which encumbrance or restriction is not applicable to any person, or the assets of any person, other than the person or the assets so acquired;
 - (8) encumbrances or restrictions arising in connection with Refinancing Indebtedness; *provided, however*, that any such encumbrances and restrictions are not materially more restrictive with respect to any Restricted Subsidiary than those in effect on the Issue Date with respect to that Restricted Subsidiary pursuant to the agreements creating or evidencing the Indebtedness being refinanced;
 - (9) customary provisions in leases, partnership agreements, limited liability company organizational governance documents, joint venture agreements and other similar agreements entered into in the ordinary course of business that restrict the transfer of leasehold interests or ownership interests in such partnership, limited liability company, joint venture or similar person;
 - (10) Purchase Money Indebtedness incurred in compliance with the covenant described under “— Limitations on Additional Indebtedness” that impose restrictions of the nature described in clause (c) above on the assets acquired; and
 - (11) any encumbrances or restrictions imposed by any amendments or refinancings of the contracts, instruments or obligations referred to in clauses (1) through (10) above; *provided* that such amendments or refinancings are, in the good faith judgment of the Issuer’s board of directors, no more materially restrictive with respect to such encumbrances and restrictions than those prior to such amendment or refinancing.

Limitations on Transactions with Affiliates

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, in one transaction or a series of related transactions, sell, lease, transfer or otherwise dispose of any of its assets to, or purchase any assets from, or enter into any contract, agreement, understanding, loan, advance or

guarantee with, or for the benefit of, any Affiliate involving aggregate consideration in excess of \$60,000 (an“**Affiliate Transaction**”), unless:

(1) such Affiliate Transaction is on terms that are no less favorable to the Issuer or the relevant Restricted Subsidiary than those that may have been obtained in a comparable transaction at such time on an arm’s-length basis by the Issuer or that Restricted Subsidiary from a person that is not an Affiliate of the Issuer or that Restricted Subsidiary; and

(2) the Issuer delivers to the trustee:

(a) with respect to any Affiliate Transaction involving aggregate value of \$1.0 million or more, an officers’ certificate certifying that such Affiliate Transaction complies with clause (1) above;

(b) with respect to any Affiliate Transaction involving aggregate value in excess of \$2.0 million, an officers’ certificate certifying that such Affiliate Transaction complies with clause (1) above and a secretary’s certificate which sets forth and authenticates a resolution that has been adopted by the Independent Directors approving such Affiliate Transaction; and

(c) with respect to any Affiliate Transaction involving aggregate value of \$10.0 million or more, the certificates described in the preceding clause (b) and (x) a written opinion as to the fairness of such Affiliate Transaction to the Issuer or such Restricted Subsidiary from a financial point of view or (y) a written appraisal supporting the value of such Affiliate Transaction, in either case, issued by an Independent Financial Advisor.

The foregoing restrictions shall not apply to:

(1) transactions exclusively between or among (a) the Issuer and one or more Restricted Subsidiaries or (b) Restricted Subsidiaries; *provided*, in each case, that no Affiliate of the Issuer (other than another Restricted Subsidiary) owns Equity Interests of any such Restricted Subsidiary;

(2) reasonable director, officer, employee and consultant compensation (including bonuses) and other benefits (including retirement, health, stock and other benefit plans) and indemnification arrangements;

(3) loans and advances permitted by clause (3) of the definition of “Permitted Investments”;

(4) any agreement as in effect as of the Issue Date or any extension, amendment or modification thereto (so long as any such extension, amendment or modification satisfies the requirements set forth in clause (1) of the first paragraph of this covenant) or any transaction contemplated thereby;

(5) Restricted Payments of the type described in clause (1), (2) or (4) of the definition of “Restricted Payment” and which are made in accordance with the covenant described under “— Limitations on Restricted Payments”; or

(6) sales of Qualified Equity Interests for cash by the Issuer to an Affiliate.

Limitations on Liens

The Issuer shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create, incur, assume or permit or suffer to exist any Lien of any nature whatsoever against (other than Permitted Liens) any assets of the Issuer or any Restricted Subsidiary (including Equity Interests of a Restricted Subsidiary), whether owned at the Issue Date or thereafter acquired, or any proceeds therefrom, or assign or otherwise convey any right to receive income or profits therefrom, which Lien secures Indebtedness or trade payables, unless contemporaneously therewith:

(1) in the case of any Lien securing an obligation that ranks *pari passu* with the Notes or a note guarantee, effective provision is made to secure the Notes or such note guarantee, as the case

may be, at least equally and ratably with or prior to such obligation with a Lien on the same collateral; and

(2) in the case of any Lien securing an obligation that is subordinated in right of payment to the Notes or a note guarantee, effective provision is made to secure the Notes or such note guarantee, as the case may be, with a Lien on the same collateral that is prior to the Lien securing such subordinated obligation,

in each case, for so long as such obligation is secured by such Lien.

Limitations on Asset Sales

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Sale unless:

(1) the Issuer or such Restricted Subsidiary receives consideration at the time of such Asset Sale at least equal to the fair market value of the assets included in such Asset Sale; and

(2) at least 75% of the total consideration received in such Asset Sale or series of related Asset Sales consists of cash or Cash Equivalents.

For purposes of clause (2), the following shall be deemed to be cash:

(a) the amount (without duplication) of any Indebtedness (other than Subordinated Indebtedness) of the Issuer or such Restricted Subsidiary that is expressly assumed by the transferee in such Asset Sale and with respect to which the Issuer or such Restricted Subsidiary, as the case may be, is unconditionally released by the holder of such Indebtedness,

(b) the amount of any obligations received from such transferee that are within 30 days converted by the Issuer or such Restricted Subsidiary to cash (to the extent of the cash actually so received), and

(c) the fair market value of any assets (other than securities, unless such securities represent Equity Interests in an entity engaged solely in a Permitted Business, such entity becomes a Restricted Subsidiary and the Issuer or a Restricted Subsidiary acquires voting and management control of such entity) received by the Issuer or any Restricted Subsidiary to be used by it in the Permitted Business.

If at any time any non-cash consideration received by the Issuer or any Restricted Subsidiary of the Issuer, as the case may be, in connection with any Asset Sale is repaid or converted into or sold or otherwise disposed of for cash (other than interest received with respect to any such non-cash consideration), then the date of such repayment, conversion or disposition shall be deemed to constitute the date of an Asset Sale hereunder and the Net Available Proceeds thereof shall be applied in accordance with this covenant.

If the Issuer or any Restricted Subsidiary engages in an Asset Sale, the Issuer or such Restricted Subsidiary shall, no later than one year following the consummation thereof, apply all or any of the Net Available Proceeds therefrom to:

(1) repay any Indebtedness under the Credit Facilities;

(2) repay any Indebtedness which was secured by the assets sold in such Asset Sale; and/or

(3) invest all or any part of the Net Available Proceeds thereof in the purchase of assets (other than securities, unless such securities represent Equity Interests in an entity engaged solely in a Permitted Business, such entity becomes a Restricted Subsidiary and the Issuer or a Restricted Subsidiary acquires voting and management control of such entity) to be used by the Issuer or any Restricted Subsidiary in the Permitted Business.

The amount of Net Available Proceeds not applied or invested as provided in this paragraph will constitute “**Excess Proceeds.**”

When the aggregate amount of Excess Proceeds equals or exceeds \$10.0 million, the Issuer will be required to make an offer to purchase from all holders and, if applicable, redeem (or make an offer to do so) any Pari Passu Indebtedness of the Issuer the provisions of which require the Issuer to redeem such Indebtedness with the proceeds from any Asset Sales (or offer to do so), in an aggregate principal amount of Notes and such Pari Passu Indebtedness equal to the amount of such Excess Proceeds as follows:

(1) the Issuer will (a) make an offer to purchase (a “**Net Proceeds Offer**”) to all holders in accordance with the procedures set forth in the indenture, and (b) redeem (or make an offer to do so) any such other Pari Passu Indebtedness, pro rata in proportion to the respective principal amounts of the Notes and such other Indebtedness required to be redeemed, the maximum principal amount of Notes and Pari Passu Indebtedness that may be redeemed out of the amount (the “**Payment Amount**”) of such Excess Proceeds;

(2) the offer price for the Notes will be payable in cash in an amount equal to 100% of the principal amount of the Notes tendered pursuant to a Net Proceeds Offer, plus accrued and unpaid interest thereon, if any, to the date such Net Proceeds Offer is consummated (the “**Offered Price**”), in accordance with the procedures set forth in the indenture and the redemption price for such Pari Passu Indebtedness (the “**Pari Passu Indebtedness Price**”) shall be as set forth in the related documentation governing such Indebtedness;

(3) if the aggregate Offered Price of Notes validly tendered and not withdrawn by holders thereof exceeds the *pro rata* portion of the Payment Amount allocable to the Notes, Notes to be purchased will be selected on a *pro rata* basis; and

(4) upon completion of such Net Proceeds Offer in accordance with the foregoing provisions, the amount of Excess Proceeds with respect to which such Net Proceeds Offer was made shall be deemed to be zero.

To the extent that the sum of the aggregate Offered Price of Notes tendered pursuant to a Net Proceeds Offer and the aggregate Pari Passu Indebtedness Price paid to the holders of such Pari Passu Indebtedness is less than the Payment Amount relating thereto, the Issuer may use such shortfall or a portion thereof, for general corporate purposes, subject to the provisions of the indenture.

In the event of the transfer of substantially all (but not all) of the assets of the Issuer and the Restricted Subsidiaries as an entirety to a person in a transaction covered by and effected in accordance with the covenant described under “—Limitations on Mergers, Consolidations, Etc.,” the successor corporation shall be deemed to have sold for cash at fair market value the assets of the Issuer and the Restricted Subsidiaries not so transferred for purposes of this covenant, and shall comply with the provisions of this covenant with respect to such deemed sale as if it were an Asset Sale (with such fair market value being deemed to be Net Available Proceeds for such purpose).

The Issuer will comply with applicable tender offer rules, including the requirements of Rule 14e-1 under the Exchange Act and any other applicable laws and regulations in connection with the purchase of Notes pursuant to a Net Proceeds Offer. To the extent that the provisions of any securities laws or regulations conflict with the “Limitations on Asset Sales” provisions of the indenture, the Issuer shall comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the “Limitations on Asset Sales” provisions of the indenture by virtue of this compliance.

Limitations on Designation of Unrestricted Subsidiaries

The Issuer may designate any Subsidiary of the Issuer as an “Unrestricted Subsidiary” under the indenture (a“**Designation**”) only if:

(1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; and

(2) the Issuer would be permitted to make, at the time of such designation, (a) a Permitted Investment or (b) an Investment pursuant to the first paragraph of “— Limitations on Restricted Payments” above, in either case, in an amount (the “**Designation Amount**”) equal to the fair market value of the Issuer’s proportionate interest in such Subsidiary on such date.

No Subsidiary shall be Designated as an “Unrestricted Subsidiary” unless such Subsidiary:

(1) has no Indebtedness other than Permitted Unrestricted Subsidiary Debt;

(2) is not party to any agreement, contract, arrangement or understanding with the Issuer or any Restricted Subsidiary unless the terms of the agreement, contract, arrangement or understanding are no less favorable to the Issuer or the Restricted Subsidiary than those that might be obtained at the time from persons who are not Affiliates of the Issuer or such Restricted Subsidiary;

(3) is a person with respect to which neither the Issuer nor any Restricted Subsidiary has any direct or indirect obligation (a) to subscribe for additional Equity Interests or (b) to maintain or preserve the person’s financial condition or to cause the person to achieve any specified levels of operating results; and

(4) has not guaranteed or otherwise directly or indirectly provided credit support for any Indebtedness of the Issuer or any Restricted Subsidiary, except for any guarantee given solely to support the pledge by the Issuer or any Restricted Subsidiary of the Equity Interests of such Unrestricted Subsidiary, which guarantee is not recourse to the Issuer or any Restricted Subsidiary, and except to the extent the amount thereof constitutes a Restricted Payment permitted pursuant to the covenant described under “— Limitations on Restricted Payments.”

If, at any time, any Unrestricted Subsidiary fails to meet the preceding requirements as an Unrestricted Subsidiary, it shall thereafter cease to be an Unrestricted Subsidiary for purposes of the indenture and any indebtedness of the Subsidiary and any Liens on assets of such Subsidiary shall be deemed to be incurred by a Restricted Subsidiary as of the date and, if the Indebtedness is not permitted to be incurred under the covenant described under “— Limitations on Additional Indebtedness” or the Lien is not permitted under the covenant described under “— Limitations on Liens,” the Issuer shall be in default of the applicable covenant.

As of the date this prospectus, the Issuer has designated MTH Mortgage, LLC and Texas Home Mortgage Company as Unrestricted Subsidiaries.

The Issuer may redesignate an Unrestricted Subsidiary as a Restricted Subsidiary only if:

(1) no Default shall have occurred and be continuing at the time of and after giving effect to such redesignation; and

(2) all Liens, Indebtedness and Investments of such Unrestricted Subsidiary outstanding immediately following such redesignation would, if incurred or made at such time, have been permitted to be incurred or made for all purposes of the indenture.

All designations and redesignations must be evidenced by resolutions of the board of directors of the Issuer, delivered to the Trustee certifying compliance with the foregoing provisions.

Limitations on Mergers, Consolidations, Etc.

The Issuer will not, directly or indirectly, in a single transaction or a series of related transactions, (a) consolidate or merge with or into (other than a merger that satisfies the requirements of clause (1) below with a Wholly-Owned Restricted Subsidiary solely for the purpose of changing the Issuer's jurisdiction of incorporation to another State of the United States), or sell, lease, transfer, convey or otherwise dispose of or assign all or substantially all of the assets of the Issuer or the Issuer and the Restricted Subsidiaries (taken as a whole) or (b) adopt a plan of liquidation unless, in either case:

(1) either:

(a) the Issuer will be the surviving or continuing person; or

(b) the person formed by or surviving such consolidation or merger or to which such sale, lease, conveyance or other disposition shall be made (or, in the case of a plan of liquidation, any person to which assets are transferred) (collectively, the "**Successor**") is a corporation or limited liability company organized and existing under the laws of any State of the United States of America or the District of Columbia, and the Successor expressly assumes, by supplemental indenture in form and substance satisfactory to the trustee, all of the obligations of the Issuer under the Notes, the indenture and the Registration Rights Agreement; *provided* that at any time the Successor is a limited liability company, there shall be a co-issuer of the Notes that is a corporation;

(2) immediately prior to and immediately after giving effect to such transaction and the assumption of the obligations as set forth in clause (1)(b) above and the incurrence of any Indebtedness to be incurred in connection therewith, no Default shall have occurred and be continuing; and

(3) immediately after and giving effect to such transaction and the assumption of the obligations set forth in clause (1)(b) above and the incurrence of any Indebtedness to be incurred in connection therewith, and the use of any net proceeds therefrom on a pro forma basis, (a) the Consolidated Net Worth of the Issuer or the Successor, as the case may be, would be at least equal to the Consolidated Net Worth of the Issuer immediately prior to such transaction and (b) the Issuer or the Successor, as the case may be, could incur \$1.00 of additional Indebtedness pursuant to the Ratio Exception.

For purposes of this covenant, any Indebtedness of the Successor which was not Indebtedness of the Issuer immediately prior to the transaction shall be deemed to have been incurred in connection with such transaction.

Except as provided under the caption "— Note Guarantees," no Guarantor may consolidate with or merge with or into (whether or not such Guarantor is the surviving person) another person, whether or not affiliated with such Guarantor, unless:

(1) either:

(a) such Guarantor will be the surviving or continuing person; or

(b) the person formed by or surviving any such consolidation or merger assumes, by supplemental indenture in form and substance satisfactory to the trustee, all of the obligations of such Guarantor under the note guarantee of such Guarantor, the indenture and the Registration Rights Agreement; and

(2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing.

For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise, in a single transaction or series of transactions) of all or substantially all of the assets of one or more Restricted

Subsidiaries, the Equity Interests of which constitute all or substantially all of the assets of the Issuer, will be deemed to be the transfer of all or substantially all of the assets of the Issuer.

Upon any consolidation, combination or merger of the Issuer or a Guarantor, or any transfer of all or substantially all of the assets of the Issuer in accordance with the foregoing, in which the Issuer or such Guarantor is not the continuing obligor under the Notes or its note guarantee, the surviving entity formed by such consolidation or into which the Issuer or such Guarantor is merged or to which the conveyance, lease or transfer is made will succeed to, and be substituted for, and may exercise every right and power of, the Issuer or such Guarantor under the indenture, the Notes and the note guarantees with the same effect as if such surviving entity had been named therein as the Issuer or such Guarantor and, except in the case of a conveyance, transfer or lease, the Issuer or such Guarantor, as the case may be, will be released from the obligation to pay the principal of and interest on the Notes or in respect of its note guarantee, as the case may be, and all of the Issuer's or such Guarantor's other obligations and covenants under the Notes, the indenture and its note guarantee, if applicable.

Notwithstanding the foregoing, any Restricted Subsidiary may merge into the Issuer or another Restricted Subsidiary.

Additional Note Guarantees

If, after the Issue Date, (a) the Issuer or any Restricted Subsidiary shall acquire or create another Subsidiary (other than a Subsidiary that has been designated an Unrestricted Subsidiary) or (b) any Unrestricted Subsidiary is redesignated a Restricted Subsidiary, then, in each such case, the Issuer shall cause such Restricted Subsidiary to:

- (1) execute and deliver to the trustee (a) a supplemental indenture in form and substance satisfactory to the trustee pursuant to which such Restricted Subsidiary shall unconditionally guarantee all of the Issuer's obligations under the Notes and the indenture and (b) a notation of guarantee in respect of its note guarantee; and
- (2) deliver to the trustee one or more opinions of counsel that such supplemental indenture (a) has been duly authorized, executed and delivered by such Restricted Subsidiary and (b) constitutes a valid and legally binding obligation of such Restricted Subsidiary in accordance with its terms.

Conduct of Business

The Issuer will not, and will not permit any Restricted Subsidiary to, engage in any business other than the Permitted Business.

Reports

Whether or not required by the SEC, so long as any Notes are outstanding, the Issuer will furnish to the holders of Notes, within the time periods specified in the SEC's rules and regulations (including any grace periods or extensions permitted by the SEC):

- (1) all quarterly and annual financial information that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K if the Issuer were required to file these Forms, including a "Management's Discussion and Analysis of Financial Condition and Results of Operations" and, with respect to the annual information only, a report on the annual financial statements by the Issuer's certified independent accountants; and
- (2) all current reports that would be required to be filed with the SEC on Form 8-K if the Issuer were required to file these reports.

In addition, whether or not required by the SEC, the Issuer will file a copy of all of the information and reports referred to in clauses (1) and (2) above with the SEC for public availability within the time periods specified in the SEC's rules and regulations (unless the SEC will not accept the filing) and make

the information available to securities analysts and prospective investors upon request. The Issuer and the Guarantors have agreed that, for so long as any Notes remain outstanding, the Issuer will furnish to the holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

Events of Default

Each of the following is an “Event of Default”:

- (1) failure by the Issuer to pay interest on any of the Notes when it becomes due and payable and the continuance of any such failure for 30 days;
- (2) failure by the Issuer to pay the principal on any of the Notes when it becomes due and payable, whether at stated maturity, upon redemption, upon purchase, upon acceleration or otherwise;
- (3) failure by the Issuer to comply with any of its agreements or covenants described above under “— Certain Covenants — Limitations on Mergers, Consolidations, Etc.,” or in respect of its obligations to make a change of control offer as described above under “— Change of Control”;
- (4) failure by the Issuer to comply with any other agreement or covenant in the indenture and continuance of this failure for 30 days after notice of the failure has been given to the Issuer by the trustee or by the holders of at least 25% of the aggregate principal amount of the Notes then outstanding;
- (5) default under any mortgage, indenture or other instrument or agreement under which there may be issued or by which there may be secured or evidenced Indebtedness of the Issuer or any Restricted Subsidiary, whether such Indebtedness now exists or is incurred after the Issue Date, which default:
 - (a) is caused by a failure to pay when due principal on such Indebtedness within the applicable express grace period,
 - (b) results in the acceleration of such Indebtedness prior to its express final maturity or
 - (c) results in the commencement of judicial proceedings to foreclose upon, or to exercise remedies under applicable law or applicable security documents to take ownership of, the assets securing such Indebtedness, and

in each case, the principal amount of such Indebtedness, together with any other Indebtedness with respect to which an event described in clause (a), (b) or (c) has occurred and is continuing, aggregates \$10.0 million or more;

- (6) one or more judgments or orders that exceed \$10.0 million in the aggregate (net of amounts covered by insurance or bonded) for the payment of money have been entered by a court or courts of competent jurisdiction against the Issuer or any Restricted Subsidiary and such judgment or judgments have not been satisfied, stayed, annulled or rescinded within 60 days of being entered;
- (7) the Issuer or any Significant Subsidiary pursuant to or within the meaning of any bankruptcy law:
 - (a) commences a voluntary case,
 - (b) consents to the entry of an order for relief against it in an involuntary case,
 - (c) consents to the appointment of a custodian of it or for all or substantially all of its assets, or
 - (d) makes a general assignment for the benefit of its creditors;

(8) a court of competent jurisdiction enters an order or decree under any bankruptcy law that:

(a) is for relief against the Issuer or any Significant Subsidiary as debtor in an involuntary case,

(b) appoints a custodian of the Issuer or any Significant Subsidiary or a custodian for all or substantially all of the assets of the Issuer or any Significant Subsidiary, or

(c) orders the liquidation of the Issuer or any Significant Subsidiary,

and the order or decree remains unstayed and in effect for 60 days; or

(9) any note guarantee of any Significant Subsidiary ceases to be in full force and effect (other than in accordance with the terms of such note guarantee and the indenture) or is declared null and void and unenforceable or found to be invalid or any Guarantor denies its liability under its note guarantee (other than by reason of release of a Guarantor from its note guarantee in accordance with the terms of the indenture and the note guarantee).

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above with respect to the Issuer), shall have occurred and be continuing under the indenture, the trustee, by written notice to the Issuer, or the holders of at least 25% in aggregate principal amount of the Notes then outstanding by written notice to the Issuer and the trustee, may declare all amounts owing under the Notes to be due and payable immediately. Upon such declaration of acceleration, the aggregate principal of and accrued and unpaid interest on the outstanding Notes shall immediately become due and payable; *provided, however*, that after such acceleration, but before a judgment or decree based on acceleration, the holders of a majority in aggregate principal amount of such outstanding Notes may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the nonpayment of accelerated principal and interest, have been cured or waived as provided in the indenture. If an Event of Default specified in clause (7) or (8) with respect to the Issuer occurs, all outstanding Notes shall become due and payable without any further action or notice.

The trustee shall, within 30 days after the occurrence of any Default with respect to the Notes, give the holders notice of all uncured Defaults thereunder known to it; *provided, however*, that, except in the case of an Event of Default in payment with respect to the Notes or a Default in complying with “— Certain Covenants — Limitations on Mergers, Consolidations, Etc.,” the trustee shall be protected in withholding such notice if and so long as a committee of its trust officers in good faith determines that the withholding of such notice is in the interest of the holders.

No holder will have any right to institute any proceeding with respect to the indenture or for any remedy thereunder, unless the trustee:

(1) has failed to act for a period of 60 days after receiving written notice of a continuing Event of Default by such holder and a request to act by holders of at least 25% in aggregate principal amount of Notes outstanding;

(2) has been offered indemnity satisfactory to it in its reasonable judgment; and

(3) has not received from the holders of a majority in aggregate principal amount of the outstanding Notes a direction inconsistent with such request.

However, such limitations do not apply to a suit instituted by a holder of any Note for enforcement of payment of the principal of or interest on such Note on or after the due date therefor (after giving effect to the grace period specified in clause (1) of the first paragraph of this “— Events of Default” section).

The Issuer is required to deliver to the trustee annually a statement regarding compliance with the indenture and, upon any officer of the Issuer becoming aware of any Default, a statement specifying such Default and what action the Issuer is taking or proposes to take with respect thereto.

Legal Defeasance and Covenant Defeasance

The Issuer may, at its option and at any time, elect to have its obligations and the obligations of the Guarantors discharged with respect to the outstanding Notes. Legal defeasance means that the Issuer and the Guarantors shall be deemed to have paid and discharged the entire indebtedness represented by the Notes and the note guarantees, and the Indenture shall cease to be of further effect as to all outstanding Notes and note guarantees, except as to

- (1) rights of holders to receive payments in respect of the principal of and interest on the Notes when such payments are due from the trust funds referred to below,
- (2) the Issuer's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes, and the maintenance of an office or agency for payment and money for security payments held in trust,
- (3) the rights, powers, trust, duties, and immunities of the trustee, and the Issuer's obligation in connection therewith, and
- (4) the legal defeasance provisions of the Indenture.

In addition, the Issuer may, at its option and at any time, elect to have its obligations and the obligations of the Guarantors released with respect to most of the covenants under the indenture, except as described otherwise in the indenture, and thereafter any omission to comply with such obligations shall not constitute a Default. In the event covenant defeasance occurs, certain Events of Default (not including non-payment and, solely for a period of 91 days following the deposit referred to in clause (1) of the next paragraph, bankruptcy, receivership, rehabilitation and insolvency events) will no longer apply. Covenant defeasance will not be effective until such bankruptcy, receivership, rehabilitation and insolvency events no longer apply. The Issuer may exercise its legal defeasance option regardless of whether it previously exercised covenant defeasance.

In order to exercise either legal defeasance or covenant defeasance:

- (1) the Issuer must irrevocably deposit with the trustee, in trust, for the benefit of the holders, U.S. legal tender, U.S. Government obligations or a combination thereof, in such amounts as will be sufficient (without reinvestment) in the opinion of a nationally recognized firm of independent public accountants selected by the Issuer, to pay the principal of and interest on the Notes on the stated date for payment or on the redemption date of the principal or installment of principal of or interest on the Notes, and the trustee must have a valid, perfected, exclusive security interest in such trust,
- (2) in the case of legal defeasance, the Issuer shall have delivered to the trustee an opinion of counsel in the United States reasonably acceptable to the trustee confirming that:
 - (a) the Issuer has received from, or there has been published by the Internal Revenue Service, a ruling, or
 - (b) since the date of the indenture, there has been a change in the applicable U.S. federal income tax law,

in either case to the effect that, and based thereon this opinion of counsel shall confirm that, the holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the legal defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such legal defeasance had not occurred,

- (3) in the case of covenant defeasance, the Issuer shall have delivered to the trustee an opinion of counsel in the United States reasonably acceptable to the trustee confirming that the holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in

the same manner and at the same times as would have been the case if the covenant defeasance had not occurred,

(4) no Default shall have occurred and be continuing on the date of such deposit (other than a Default resulting from the borrowing of funds to be applied to such deposit and the grant of any Lien securing such borrowing),

(5) the legal defeasance or covenant defeasance shall not result in a breach or violation of, or constitute a default under the Indenture or any other material agreement or instrument to which the Issuer or any of its Subsidiaries is a party or by which the Issuer or any of its Subsidiaries is bound,

(6) the Issuer shall have delivered to the trustee an officers' certificate stating that the deposit was not made by it with the intent of preferring the holders over any other of its creditors or with the intent of defeating, hindering, delaying or defrauding any other of its creditors or others, and

(7) the Issuer shall have delivered to the trustee an officers' certificate and an opinion of counsel, each stating that the conditions provided for in, in the case of the officers' certificate, clauses (1) through (6) and, in the case of the opinion of counsel, clauses (1) (with respect to the validity and perfection of the security interest), (2) and/or (3) and (5) of this paragraph have been complied with.

If the funds deposited with the trustee to effect covenant defeasance are insufficient to pay the principal of and interest on the Notes when due, then our obligations and the obligations of Guarantors under the indenture will be revived and no such defeasance will be deemed to have occurred.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect (except as to rights of registration of transfer or exchange of Notes which shall survive until all Notes have been canceled) as to all outstanding Notes when either

(1) all the Notes that have been authenticated and delivered (except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from this trust) have been delivered to the trustee for cancellation, or

(2) (a) all Notes not delivered to the trustee for cancellation otherwise have become due and payable or have been called for redemption pursuant to the provisions described under "— Optional Redemption," and the Issuer has irrevocably deposited or caused to be deposited with the trustee trust funds in trust in an amount of money sufficient to pay and discharge the entire Indebtedness (including all principal and accrued interest) on the Notes not theretofore delivered to the trustee for cancellation,

(b) the Issuer has paid all sums payable by it under the indenture,

(c) the Issuer has delivered irrevocable instructions to the trustee to apply the deposited money toward the payment of the Notes at maturity or on the date of redemption, as the case may be, and

(d) the trustee, for the benefit of the holders, has a valid, perfected, exclusive security interest in this trust.

In addition, the Issuer must deliver an officers' certificate and an opinion of counsel (as to legal matters) stating that all conditions precedent to satisfaction and discharge have been complied with.

Transfer and Exchange

A holder will be able to register the transfer of or exchange notes only in accordance with the provisions of the indenture. The registrar may require a holder, among other things, to furnish appropriate endorsements and transfer documents and to pay any taxes and fees required by law or permitted by the indenture. Without the prior consent of the Issuer, the registrar is not required (1) to register the transfer of or exchange any Note selected for redemption, (2) to register the transfer of or exchange any Note for a period of 15 days before a selection of Notes to be redeemed or (3) to register the transfer or exchange of a Note between a record date and the next succeeding interest payment date.

The Notes will be issued in registered form and the registered holder will be treated as the owner of such Note for all purposes.

Amendment, Supplement and Waiver

Subject to certain exceptions, the indenture or the Notes may be amended with the consent (which may include consents obtained in connection with a tender offer or exchange offer for Notes) of the holders of at least a majority in principal amount of the Notes then outstanding, and any existing Default under, or compliance with any provision of, the Indenture may be waived (other than any continuing Default in the payment of the principal or interest on the Notes) with the consent (which may include consents obtained in connection with a tender offer or exchange offer for Notes) of the holders of a majority in principal amount of the Notes then outstanding; *provided that*:

(a) no such amendment may, without the consent of the holders of two-thirds in aggregate principal amount of Notes then outstanding, amend the obligation of the Issuer under the heading “— Change of Control” or the related definitions that could adversely affect the rights of any holder; and

(b) without the consent of each holder affected, the Issuer and the trustee may not:

(1) change the maturity of any Note;

(2) reduce the amount, extend the due date or otherwise affect the terms of any scheduled payment of interest on or principal of the Notes;

(3) reduce any premium payable upon optional redemption of the Notes, change the date on which any Notes are subject to redemption or otherwise alter the provisions with respect to the redemption of the Notes;

(4) make any Note payable in money or currency other than that stated in the Notes;

(5) modify or change any provision of the indenture or the related definitions to affect the ranking of the Notes or any note guarantee in a manner that adversely affects the holders;

(6) reduce the percentage of holders necessary to consent to an amendment or waiver to the indenture or the Notes;

(7) impair the rights of holders to receive payments of principal of or interest on the Notes;

(8) release any Guarantor from any of its obligations under its note guarantee or the indenture, except as permitted by the indenture; or

(9) make any change in these amendment and waiver provisions.

Notwithstanding the foregoing, the Issuer and the trustee may amend the indenture, the note guarantees or the Notes without the consent of any holder, to cure any ambiguity, defect or inconsistency, to provide for uncertificated Notes in addition to or in place of certificated Notes, to provide for the assumption of the Issuer’s obligations to the holders in the case of a merger or acquisition, to release any Guarantor from any of its obligations under its note guarantee or the indenture (to the extent permitted by

the indenture), to make any change that does not materially adversely affect the rights of any holder or, in the case of the indenture, to maintain the qualification of the indenture under the Trust Indenture Act.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of the Issuer will have any liability for any obligations of the Issuer under the Notes or the indenture or of any Guarantor under its note guarantee or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes and the note guarantees.

Concerning the Trustee

Wells Fargo Bank, National Association is the trustee under the indenture and has been appointed by the Issuer as registrar and paying agent with regard to the Notes. The indenture contains certain limitations on the rights of the trustee, should it become a creditor of the Issuer, to obtain payment of claims in certain cases, or to realize on certain assets received in respect of any such claim as security or otherwise. The trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest (as defined in the indenture), it must eliminate such conflict or resign.

The holders of a majority in principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to certain exceptions. The indenture provides that, in case an Event of Default occurs and is not cured, the trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in similar circumstances in the conduct of his or her own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holder, unless such holder shall have offered to the trustee security and indemnity satisfactory to the trustee.

Governing Law

The indenture, the Notes and the note guarantees are governed by, and construed in accordance with, the laws of the State of New York.

Certain Definitions

(7) any transfer or series of related transfers that, but for this clause, would be Asset Sales, if after giving effect to such transfers, the aggregate fair market value of the assets transferred in such transaction or any such series of related transactions does not exceed \$1.0 million.

“Attributable Indebtedness”, when used with respect to any Sale and Leaseback Transaction, means, as at the time of determination, the present value (discounted at a rate equivalent to the Issuer’s then-current weighted average cost of funds for borrowed money as at the time of determination, compounded on a semi-annual basis) of the total obligations of the lessee for rental payments during the remaining term of any Capitalized Lease included in any such Sale and Leaseback Transaction.

“Borrowing Base” means, at any time of determination, the sum of the following without duplication:

(1) 100% of all cash and Cash Equivalents held by the Issuer or any Restricted Subsidiary;

“Consolidated Amortization Expense” for any period means the amortization expense of the Issuer and the Restricted Subsidiaries for such period, determined on a consolidated basis in accordance with GAAP.

“Consolidated Cash Flow Available for Fixed Charges” for any period means, without duplication, the sum of the amounts for such period of

(1) Consolidated Net Income, *plus*

(2) in each case only to the extent (and in the same proportion) deducted in determining Consolidated Net Income and with respect to the portion of Consolidated Net Income attributable to any Restricted Subsidiary only if a corresponding amount would be permitted at the date of determination to be distributed to the Issuer by such Restricted Subsidiary without prior approval (that has not been obtained), pursuant to the terms of its charter and all agreements, instruments, judgments, decrees, orders, statutes, rules and governmental regulations applicable to such Restricted Subsidiary or its stockholders,

(a) Consolidated Income Tax Expense,

(b) Consolidated Amortization Expense (but only to the extent not included in Consolidated Interest Expense),

(c) Consolidated Depreciation Expense,

(d) Consolidated Interest Expense and interest and other charges amortized to cost of home sales and cost of land sales, and

(e) all other non-cash items reducing the Consolidated Net Income (excluding any non-cash charge that results in an accrual of a reserve for cash charges in any future period) for such period,

in each case determined on a consolidated basis in accordance with GAAP, *minus*

(3) the aggregate amount of all non-cash items, determined on a consolidated basis, to the extent such items increased Consolidated Net Income for such period.

“Consolidated Depreciation Expense” for any period means the depreciation expense of the Issuer and the Restricted Subsidiaries for such period, determined on a consolidated basis in accordance with GAAP.

“Consolidated Fixed Charge Coverage Ratio” means the ratio of Consolidated Cash Flow Available for Fixed Charges during the most recent four consecutive full fiscal quarters for which financial statements are available (the **“Four-Quarter Period”**) ending on or prior to the date of the transaction giving rise to the need to calculate the Consolidated Fixed Charge Coverage Ratio (the **“Transaction Date”**) to Consolidated Interest Incurred for the Four-Quarter Period. For purposes of this definition, Consolidated Cash Flow Available for Fixed Charges and Consolidated Interest Incurred shall be calculated after giving effect on a pro forma basis for the period of such calculation to:

(1) the incurrence of any Indebtedness or the issuance of any preferred stock of the Issuer or any Restricted Subsidiary (and the application of the proceeds thereof) and any repayment of other Indebtedness or redemption of other preferred stock (and the application of the proceeds therefrom) (other than the incurrence or repayment of Indebtedness in the ordinary course of

business for working capital purposes pursuant to any revolving credit arrangement) occurring during the Four-Quarter Period or at any time subsequent to the last day of the Four-Quarter Period and on or prior to the Transaction Date, as if such incurrence, repayment, issuance or redemption, as the case may be (and the application of the proceeds thereof), occurred on the first day of the Four-Quarter Period; and

(2) any Asset Sale or Asset Acquisition (including, without limitation, any Asset Acquisition giving rise to the need to make such calculation as a result of the Issuer or any Restricted Subsidiary (including any person who becomes a Restricted Subsidiary as a result of such Asset Acquisition) incurring Acquired Indebtedness and also including any Consolidated Cash Flow Available for Fixed Charges (including any pro forma expense and cost reductions calculated on a basis consistent with Regulation S-X under the Exchange Act) associated with any such Asset Acquisition) occurring during the Four-Quarter Period or at any time subsequent to the last day of the Four-Quarter Period and on or prior to the Transaction Date, as if such Asset Sale or Asset Acquisition or other disposition (including the incurrence of, or assumption or liability for, any such Indebtedness or Acquired Indebtedness) occurred on the first day of the Four-Quarter Period.

If the Issuer or any Restricted Subsidiary directly or indirectly guarantees Indebtedness of a third person, the preceding sentence shall give effect to the incurrence of such guaranteed Indebtedness as if the Issuer or such Restricted Subsidiary had directly incurred or otherwise assumed such guaranteed Indebtedness.

In calculating Consolidated Interest Incurred for purposes of determining the denominator (but not the numerator) of the Consolidated Fixed Charge Coverage Ratio:

(1) interest on outstanding Indebtedness determined on a fluctuating basis as of the Transaction Date and which will continue to be so determined thereafter shall be deemed to have accrued at a fixed rate per annum equal to the rate of interest on this Indebtedness in effect on the Transaction Date;

(2) if interest on any Indebtedness actually incurred on the Transaction Date may optionally be determined at an interest rate based upon a factor of a prime or similar rate, a eurocurrency interbank offered rate, or other rates, then the interest rate in effect on the Transaction Date will be deemed to have been in effect during the Four-Quarter Period; and

(3) notwithstanding clause (1) or (2) above, interest on Indebtedness determined on a fluctuating basis, to the extent such interest is covered by agreements with a term of at least one year after the Transaction Date relating to Hedging Obligations, shall be deemed to accrue at the rate per annum resulting after giving effect to the operation of these agreements.

“Consolidated Income Tax Expense” for any period means the provision for taxes of the Issuer and the Restricted Subsidiaries, determined on a consolidated basis in accordance with GAAP.

“Consolidated Indebtedness” means, as of any date, the total Indebtedness of the Issuer and the Restricted Subsidiaries as of such date, determined on a consolidated basis.

“Consolidated Interest Expense” for any period means the sum, without duplication, of the total interest expense (other than interest and other charges amortized to cost of home sales and cost of land sales) of the Issuer and the Restricted Subsidiaries for such period, determined on a consolidated basis in accordance with GAAP and including without duplication,

(1) imputed interest on Capitalized Lease Obligations and Attributable Indebtedness,

(2) commissions, discounts and other fees and charges owed with respect to letters of credit securing financial obligations, bankers' acceptance financing and receivables financings,

(3) the net costs associated with Hedging Obligations,

(4) amortization of debt issuance costs, debt discount or premium and other financing fees and expenses,

“**Significant Subsidiary**” means (1) any Restricted Subsidiary that would be a “significant subsidiary” as defined in Regulation S-X promulgated pursuant to the Securities Act as such Regulation is in effect on the Issue Date and (2) any Restricted Subsidiary that, when aggregated with all other Restricted Subsidiaries that are not otherwise Significant Subsidiaries and as to which any event described in clause (7) or (8) under “— Events of Default” has occurred and is continuing, would constitute a Significant Subsidiary under clause (1) of this definition.

“**Subordinated Indebtedness**” means Indebtedness of the Issuer or any Restricted Subsidiary that is subordinated in right of payment to the Notes or the note guarantees, respectively.

“**Subsidiary**” means, with respect to any person:

“**Wholly-Owned Restricted Subsidiary**” means a Restricted Subsidiary of which 100% of the Equity Interests (except for directors’ qualifying shares or certain minority interests owned by other persons solely due to local law requirements that there be more than one stockholder, but which interest is not in excess of what is required for such purpose) are owned directly by the Issuer or through one or more Wholly-Owned Restricted Subsidiaries.

Book-Entry, Delivery and Form of Notes

The exchange notes will be represented by one or more global notes in definitive form. The global notes will be deposited with, or on behalf of, the Depository Trust Company (“**DTC**”) and registered in the name of Cede & Co., as nominee of DTC (such nominee being referred to herein as the “**Global Note Holder**”). DTC will maintain the Notes in denominations of \$1,000 and integral multiples thereof through its book-entry facilities.

DTC has advised the Company as follows:

DTC is a limited-purpose trust company that was created to hold securities for its participating organizations, including the Euroclear System and Clearstream Banking, Société Anonyme, Luxembourg (collectively, the “**Participants**” or the “**Depository’s Participants**”), and to facilitate the clearance and settlement of transactions in these securities between Participants through electronic book-entry changes in accounts of its Participants. The Depository’s Participants include securities brokers and dealers (including the initial purchaser), banks and trust companies, clearing corporations and certain other organizations. Access to DTC’s system is also available to other entities such as banks, brokers, dealers and trust companies (collectively, the “**Indirect Participants**” or the “**Depository’s Indirect Participants**”) that clear through or maintain a custodial relationship with a Participant, either directly or indirectly. Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Depository’s Participants or the Depository’s Indirect Participants. Pursuant to procedures established by DTC, ownership of the Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the interests of the Depository’s Participants) and the records of the Depository’s Participants (with respect to the interests of the Depository’s Indirect Participants).

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer the Notes will be limited to such extent.

So long as the Global Note Holder is the registered owner of any Notes, the Global Note Holder will be considered the sole holder of outstanding Notes represented by such global notes under the indenture. Except as provided below, owners of Notes will not be entitled to have Notes registered in their names and will not be considered the owners or holders thereof under the Indenture for any purpose, including with respect to the giving of any directions, instructions, or approvals to the trustee thereunder. None of the Issuer, the Guarantors or the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of Notes by DTC, or for maintaining, supervising or reviewing any records of DTC relating to such Notes.

Payments in respect of the principal of, premium, if any, and interest on any Notes registered in the name of a Global Note Holder on the applicable record date will be payable by the trustee to or at the direction of such Global Note Holder in its capacity as the registered holder under the indenture. Under the terms of the indenture, the Issuer and the trustee may treat the persons in whose names any Notes, including the global notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, neither the Issuer nor the trustee has or will have any responsibility or liability for the payment of such amounts to beneficial owners of Notes (including principal, premium, if any, and interest). The Issuer believes, however, that it is currently the policy of DTC to immediately credit the accounts of the relevant Participants with such payments, in amounts proportionate to their respective beneficial interests in the relevant security as shown on the records of DTC. Payments by the Depository’s Participants and the Depository’s Indirect Participants to the beneficial owners of Notes will be governed by standing instructions and customary practice and will be the responsibility of the Depository’s Participants or the Depository’s Indirect Participants.

If an Event of Default occurs, any person having a beneficial interest in the global notes may, through the Depository’s Participants or the Depository’s Indirect Participants upon request to the trustee and confirmation of such beneficial interest by the Depository or its Participants or Indirect Participants,

exchange such beneficial interest for notes in definitive form. Upon any such issuance, the trustee is required to register such Notes in the name of and cause the same to be delivered to, such person or persons (or the nominee of any thereof).

Neither the Issuer nor the trustee will be liable for any delay by the Global Note Holder or DTC in identifying the beneficial owners of notes and the Issuer and the trustee may conclusively rely on, and will be protected in relying on, instructions from the Global Note Holder or DTC for all purposes.

THE EXCHANGE OFFER

Purposes and Effects

We issued the outstanding notes on April 21, 2004 to the initial purchaser, who resold the outstanding notes to “qualified institutional buyers” (as defined in Rule 144A under the Securities Act) and certain non-U.S. persons in accordance with Regulation S of the Securities Act. In connection with the sale of the outstanding notes, we and the initial purchaser entered into the registration rights agreement pursuant to which we agreed to file with the SEC a registration statement with respect to an offer to exchange exchange notes for the outstanding notes within 75 days after the outstanding notes were issued. In addition, we agreed to use our reasonable best efforts to cause the registration statement to become effective under the Securities Act within 150 days after the outstanding notes were issued and to issue the exchange notes pursuant to the exchange offer. A copy of the registration rights agreement has been filed as an exhibit to the registration statement of which this prospectus is a part.

The exchange offer is being made pursuant to the registration rights agreement. Holders of outstanding notes who do not tender their outstanding notes or whose outstanding notes are tendered but not accepted would have to rely on exemptions from registration requirements under the securities laws, including the Securities Act, if they wish to sell their outstanding notes.

Based on interpretations by the staff of the SEC set forth in no-action letters issued to persons unrelated to us, we believe the exchange notes issued pursuant to the exchange offer in exchange for outstanding notes may be offered for sale, sold and otherwise transferred by any holder (other than a person that is an “affiliate” of ours within the meaning of Rule 405 under the Securities Act and except as set forth in the next paragraph) without registration or the delivery of a prospectus under the Securities Act, provided the holder acquires the exchange notes in the ordinary course of the holder’s business and the holder is not participating and does not intend to participate, and has no arrangement or understanding with any person to participate, in the distribution of the exchange notes.

If a person were to participate in the exchange offer for the purpose of distributing securities in a manner not permitted by the SEC’s interpretation, (1) the position of the staff of the SEC enunciated in the no-action letters would not be applicable to the person and (2) the person would be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with a sale of the exchange notes with any such resale transaction effected by it covered by an effective registration statement containing the selling securityholder information required by Item 507 or 508 of the SEC’s Regulation S-K.

Each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes which the broker-dealer acquired as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any sale of those exchange notes.

The exchange offer is not being made to, nor will we accept surrenders for exchange from, holders of exchange notes with addresses in any jurisdiction in which the exchange offer or the issuance of exchange notes pursuant to it would violate applicable securities or blue sky laws. Prior to the exchange offer, however, we will register or qualify, or cooperate with the holders of the outstanding notes and their respective counsel in connection with the registration or qualification of, the exchange notes for offer and sale under the securities or blue sky laws of such jurisdictions as are necessary to permit consummation of the exchange offer and do anything else which is necessary or advisable to enable the offer and issuance of the exchange notes in those jurisdictions.

Terms of the Exchange Offer

Upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal, we will issue exchange notes in exchange for all outstanding notes which are validly tendered prior to 5:00 p.m., New York City time, on the expiration date (as defined below) and not withdrawn. The principal amount of the exchange notes issued in the exchange will be the same as the

principal amount of the outstanding notes for which they are exchanged. Holders may tender some or all of their outstanding notes in response to the exchange offer.

However, outstanding notes may be tendered only in multiples of \$1,000. See "Description of the Exchange Notes."

The form and terms of the exchange notes will be the same in all material respects as the form and terms of the outstanding notes, except that (1) the exchange notes will be registered under the Securities Act and hence will not bear legends regarding restrictions on transfer and (2) because the exchange notes will be registered, holders of exchange notes will not be, and upon the consummation of the exchange offer, except under limited circumstances, holders of outstanding notes will no longer be, entitled to rights under the registration rights agreement intended for holders of unregistered securities.

Outstanding notes which are not tendered for exchange or are tendered but not accepted in the exchange offer will remain outstanding and be entitled to the benefits of the indenture, but will not be entitled to any registration rights under the registration rights agreement.

We will be deemed to accept all the outstanding notes which are validly tendered and not withdrawn when we give oral or written notice to that effect to the exchange agent. The exchange agent will act as agent for the tendering holders for the purpose of receiving exchange notes from us.

If any tendered outstanding notes are not accepted for exchange because of an invalid tender or otherwise, certificates for those outstanding notes will be returned, without expense, to the tendering holder promptly after the expiration date.

Holders who tender outstanding notes in response to the exchange offer will not be required to pay brokerage commissions or fees or, except as described in the instructions in the letter of transmittal, transfer taxes. We will pay all charges and expenses, other than certain taxes described below, in connection with the exchange offer. See "— Fees and Expenses."

Expiration Date; Extension; Termination; Amendments

The exchange offer will expire at 5:00 p.m., New York time, June 24, 2004, the "expiration date" unless we extend it by notice to the exchange agent. The expiration date will be at least 20 business days after commencement of the exchange offer in accordance with Rule 14e-1(a) under the Exchange Act. We reserve the right to extend the exchange offer at our discretion. If we extend the exchange offer, the term "expiration date" will mean the time and date on which the exchange offer as extended will expire. We will notify the exchange agent of any extension by oral or written notice and will make a public announcement of any extension, not later than 9:00 a.m., New York City time, on the business day after the previously scheduled expiration date. We may terminate the exchange offer by written notice to the exchange agent if any of the conditions described below under "— Conditions of the Exchange Offer" is not satisfied. If the exchange offer is amended in a manner that we determine to constitute a material change, we will promptly disclose the amendment in a prospectus supplement that will be distributed to the registered holders.

Interest on Exchange Notes

The exchange notes will bear interest at 7% per year from and including April 21, 2004. Interest on the exchange notes will be payable twice a year, on May 1 and November 1, beginning November 1, 2004. In order to avoid duplicative payment of interest, all interest accrued on outstanding notes that are accepted for exchange before November 1, 2004 will be superceded by the interest that is deemed to have accrued on the exchange notes from April 21, 2004 through the date of exchange.

Termination of Certain Rights

The registration rights agreement provides that, with certain exceptions, if: (1) the exchange offer registration statement has not been filed with the SEC on or prior to the 75th calendar day following the

date of original issue of the outstanding notes; (2) the exchange offer registration statement has not been declared effective on or prior to the 150th calendar day following the date of original issue of the outstanding notes, or (3) the exchange offer is not consummated on or prior to the 180th day following the date of original issue of the outstanding notes (each event referred to in clauses (1) through (3) above being a "registration default"), the interest rate borne by the outstanding notes will be increased by 0.25% per annum upon the occurrence of a registration default. This rate will continue to increase by 0.25% each 90 day period that the liquidated damages (as defined below) continue to accrue under any such circumstance. However, the maximum total increase in the interest rate will in no event exceed one percent (1.0%) per year. We refer to this increase in the interest rate on the notes as "liquidated damages." Such interest is payable in addition to any other interest payable from time to time with respect to the outstanding notes and the exchange notes in cash on each interest payment date to the holders of record for such interest payment date. After the cure of registration defaults, the accrual of liquidated damages will stop and the interest rate will revert to the original rate.

Holders of exchange notes will not be and, upon consummation of the exchange offer, holders of outstanding notes will no longer be, entitled to rights under the registration rights agreement intended for holders of outstanding notes which are restricted as to transferability, except as otherwise provided in the registration rights agreement. The exchange offer will be deemed consummated when we deliver to the exchange agent exchange notes in the same aggregate principal amount as that of the outstanding notes which are validly tendered and not withdrawn.

In the event that:

- any changes in law or the applicable interpretations of the SEC do not permit us to effect the exchange offer;
- the exchange offer is not consummated within 180 days after the original issue date of the outstanding notes;
- any holder notifies us that it is prohibited by law or applicable interpretations of the SEC from participating in the exchange offer;
- in the case of any holder that participates in the exchange offer, such holder does not receive freely transferable notes on the date of the exchange (other than due solely to the status of such holder as an affiliate of the Issuer);
- the initial purchasers of the outstanding notes so request with respect to notes that have, or are reasonably likely to be determined to have, the status of unsold allotments in an initial distribution; or
- or any holder of notes that is not entitled to participate in the exchange offer so requests

then, the Issuer and the Guarantors shall as promptly as practicable, but in no event later than 45 days after the occurrence of any of the above shelf registration statement triggering events, file with the SEC a shelf registration statement covering resales of the outstanding notes by holders who satisfy certain conditions relating to the provision of information in connection with the shelf registration statement.

Procedures for Tendering

Only a holder of outstanding notes may tender outstanding notes in response to the exchange offer. To tender outstanding notes, the holder must either:

— follow DTC's Automated Tender Offer Program procedures, or

— do the following:

- complete, sign and date the letter of transmittal, or a facsimile of one;
- have the signatures guaranteed if required by the letter of transmittal; and

- mail or otherwise deliver the transmittal or facsimile of one, together with the outstanding notes (unless the tender is being effected using the procedure for book-entry transfer described below) and any other required documents, to the exchange agent prior to 5:00 p.m., New York City time, on the expiration date.

The exchange agent will seek to establish an account with respect to the outstanding notes at the depository for purposes of the exchange offer within two business days after the date of this prospectus. Any financial institution that is a participant in the depository's system may make book-entry delivery of outstanding notes by causing the depository to transfer them into the exchange agent's account at the depository in accordance with the depository's procedures for transfer. However, although a holder may effect delivery of outstanding notes through book-entry transfer at the depository, it must also follow the depository's Automated Tender Offer Program procedures, submit to the exchange agent the letter of transmittal or facsimile thereof, with any required signature guarantees and any other required documents, on or before the expiration date, or follow the guaranteed delivery procedures described below.

LETTERS OF TRANSMITTAL AND OUTSTANDING NOTES MUST BE SENT TO THE EXCHANGE AGENT. DELIVERY OF A DOCUMENT TO DTC DOES NOT CONSTITUTE DELIVERY TO THE EXCHANGE AGENT.

A tender of outstanding notes by a holder will constitute an agreement by the holder to transfer the outstanding notes to us in exchange for exchange notes on the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal.

The method of delivering outstanding notes and the letter of transmittal and any other required documents to the exchange agent is at the election and risk of the holder. It is recommended that holders use overnight or hand delivery services. In all cases, sufficient time should be allowed to assure delivery to the exchange agent before the expiration time. No letter of transmittal or outstanding notes should be sent to us. Holders may ask their brokers, dealers, commercial banks, trust companies or nominees to assist them in effecting tenders.

If you are the beneficial owner of outstanding notes that are registered in the name of a broker-dealer, commercial bank, trust company, or other nominee and you wish to tender, you should contact the registered holder promptly and instruct such holder on your behalf. Holders who intend to tender outstanding notes through DTC's Automated Tender Offer Program procedures need not submit a letter of transmittal.

Signatures on letters of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by an eligible institution unless the outstanding notes are being tendered for the account of an eligible institution. An eligible institution is a bank, broker, dealer, credit union, savings association or other entity which is a member in good standing of the Securities Transfer Agents Medallion Program.

If the letter of transmittal or any outstanding notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, they should so indicate when signing, and we may require that evidence satisfactory to us of their authority to sign be submitted with the letter of transmittal.

The depository has confirmed that any financial institution that is a participant in DTC's system may use DTC's Automated Tender Offer Program procedures to tender outstanding notes. All questions as to the validity, form, eligibility (including time of receipt) and acceptance and withdrawal of tendered outstanding notes will be determined by us in our sole discretion, and that determination will be final and binding. We reserve the right to reject any outstanding notes which are not properly tendered or the acceptance of which we believe might be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular outstanding notes, without being required to waive the same defects, irregularities or conditions as to other outstanding notes. Our interpretation of the terms and conditions of the exchange offer (including the instructions in the letter of transmittal) will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of outstanding notes must be cured by the expiration date, or by such later time as we may determine. Although we

intend to request the exchange agent to notify holders of defects or irregularities with respect to tenders of outstanding notes, neither we, the exchange agent nor any other person will incur any liability for failure to give such notification. Tenders of outstanding notes will not be deemed to have been made until all defects and irregularities have been cured or waived. Any outstanding notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders, unless otherwise provided in the letter of transmittal, as soon as practicable following the expiration date.

We have the right (subject to limitations contained in the indenture) (1) to purchase or make offers for any outstanding notes that remain outstanding after the expiration date and (2) to the extent permitted by applicable law, to purchase outstanding notes in privately negotiated transactions or otherwise. The terms of any such purchases or offers could differ from the terms of the exchange offer.

By tendering, a holder will be representing to us, among other things, that: (1) it or the person who will acquire the exchange notes being issued as a result of the exchange offer (whether or not that is the holder) will be acquiring them in the ordinary course of that person's business, (2) neither the holder nor any such other person has an arrangement or understanding with any person to participate in a distribution of the exchange notes, (3) it is not a broker-dealer that owns outstanding notes acquired directly from us or an affiliate of ours, (4) it is not an "affiliate" of the company (as defined in Rule 405 under the Securities Act) or any of the guarantors, and (5) it is not acting on behalf of any other person who could not truthfully make the representation described in this paragraph. In addition, if the holder is a broker-dealer that will receive exchange notes for its own account in exchange for outstanding notes that were acquired as result of market-making activities or other trading activities, the holder will, by tendering, acknowledge that it will comply with the prospectus delivery requirements of the Securities Act in connection with any resale of those exchange notes.

Conditions of the Exchange Offer

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange securities for, any outstanding notes, if:

(a) any action or proceeding is instituted or threatened in any court or by or before any governmental agency which might materially impair our or the guarantors' ability to proceed with the exchange offer or any material adverse development has occurred in any existing action or proceeding with respect to us or any of the guarantors that would impair our or their ability to proceed;

(b) the exchange offer would violate any law or interpretation by the staff of the SEC; or

(c) any governmental approval has not been obtained, which approval we deem necessary for the consummation of the exchange offer.

If any of the conditions are not satisfied, we may (1) refuse to accept any outstanding notes and return all tendered outstanding notes to the tendering holders, (2) extend the exchange offer and retain all outstanding notes tendered prior to the expiration of the exchange offer, subject, however, to the rights of holders to withdraw such outstanding notes (see "— Withdrawal of Tenders"), (3) waive such unsatisfied conditions with respect to the exchange offer and accept all properly tendered outstanding notes which have not been withdrawn, (4) terminate the exchange offer, or (5) amend the exchange offer.

Guaranteed Delivery Procedures

Holders who wish to tender their outstanding notes and (1) whose outstanding notes are not immediately available, or (2) who cannot deliver their outstanding notes or any other required documents

to the exchange agent or cannot complete the procedure for book-entry transfer prior to the expiration date, may effect a tender if:

(a) The tender is made through an eligible institution;

(b) Prior to the expiration date, the exchange agent receives from the eligible institution a properly completed and duly executed notice of guaranteed delivery (by facsimile transmission, mail or hand) setting forth the name and address of the eligible holder, the certificate number(s) of the outstanding notes (if available) and the principal amount of outstanding notes tendered, together with a duly executed letter of transmittal (or a facsimile of one), stating that the tender is being made by that notice of guaranteed delivery and guaranteeing that, within three business days after the expiration date, the certificate(s) representing the outstanding notes (or confirmation of a book-entry transfer into the exchange agent's account at DTC) and any other documents required by the letter of transmittal will be delivered to the exchange agent; and

(c) The certificate(s) representing all the tendered outstanding notes (or confirmation of a book-entry transfer into the exchange agent's account at DTC) and all other documents required by the letter of transmittal are received by the exchange agent within three business days after the expiration date.

Upon the request to the exchange agent, a form of notice of guaranteed delivery will be sent to holders who wish to use the guaranteed delivery procedures described above.

Withdrawal of Tenders

Except as otherwise described below, tenders of outstanding notes may be withdrawn at any time prior to 5:00 p.m., New York City time, on the expiration date.

To withdraw a tender of outstanding notes, a written or facsimile transmission notice of withdrawal must be received by the exchange agent prior to 5:00 p.m., New York City time, on the expiration date. Any notice of withdrawal must (i) specify the name of the person who deposited the outstanding notes to be withdrawn, (ii) identify the outstanding notes to be withdrawn (including the certificate numbers and principal amounts of the outstanding notes), (iii) be signed by the depositor in the same manner as the signature on the letter of transmittal by which the outstanding notes were tendered (including any required signature guarantees) or be accompanied by documents of transfer sufficient to have the trustee register the transfer of the outstanding notes into the name of the person who withdraws the tender, and (iv) specify the name in which the withdrawn outstanding notes are to be registered, if different from that of the depositor. All questions as to the validity, form and eligibility (including time of receipt) of withdrawal notices will be determined by us in our sole discretion, and that determination will be final and binding on all parties. Any outstanding notes which are withdrawn will be deemed not to have been validly tendered for purposes of the exchange offer, and no exchange notes will be issued with respect to those outstanding notes unless they are validly re-tendered. Any outstanding notes which have been tendered but which are not accepted for exchange or which are withdrawn will be returned to the holder without cost to the holder promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn outstanding notes may be re-tendered at any time prior to the expiration date in accordance with the procedures described above under "— Procedures for Tendering."

Fees and Expenses

We will bear the expenses of soliciting tenders pursuant to the exchange offer. The principal solicitation of tenders is being made by mail. However, solicitations also may be made by telecopy, telephone or in person by officers and regular employees of ours and our affiliates.

We have not retained any dealer-manager in connection with the exchange offer and will not make any payments to brokers, dealers or others for soliciting acceptances of the exchange offer. We will, however, pay the exchange agent reasonable and customary fees for its services and reimburse it for its reasonable out-of-pocket expenses in connection with the exchange offer. We may also reimburse

brokerage houses and other custodians, nominees and fiduciaries for the reasonable out-of-pocket expenses they incur in forwarding copies of this prospectus, letters of transmittal and related documents to the beneficial owners of the outstanding notes and in handling or forwarding tenders for exchange. We will pay the other expenses incurred in connection with the exchange offer, including fees and expenses of the trustee, accounting and legal fees and printing costs.

We will pay all transfer taxes, if any, applicable to the exchange of outstanding notes for exchange notes pursuant to the exchange offer. If, however, certificates representing exchange notes or outstanding notes for principal amounts which are not tendered or accepted for exchange are to be delivered to, or are to be issued in the name of, a person other than the registered holder of the outstanding notes tendered, or if tendered outstanding notes are registered in the name of a person other than the person who signs the letter of transmittal, or if a transfer tax is imposed for any other reason, other than the exchange of outstanding notes for exchange notes pursuant to the exchange offer, the tendering holder must pay the transfer taxes (whether imposed on the registered holder or any other person). Unless satisfactory evidence of payment of transfer taxes or exemption from the need to pay them is submitted with the letter of transmittal, the amount of the transfer taxes will be billed directly to the tendering holder. We may refuse to issue exchange notes in exchange for outstanding notes, or to return certificates evidencing outstanding notes which are not exchanged, until we receive evidence satisfactory to us that any transfer taxes payable by the holder have been paid.

Consequences of Failure to Exchange Outstanding Notes

If a holder does not exchange outstanding notes for exchange notes in response to the exchange offer, the outstanding notes will continue to be subject to the restrictions on transfer described in the legend on the certificate evidencing the outstanding notes, and will not have the benefit of any agreement by us to register outstanding notes under the Securities Act. In general, notes may not be offered or sold, unless the sale is registered under the Securities Act, or unless the offer and sale are exempt from, or not subject to, the Securities Act or any applicable state securities laws.

Participation in the exchange offer is voluntary and holders should carefully consider whether to accept the exchange offer and tender their outstanding notes. Holders of outstanding notes are urged to consult their financial and tax advisors in making their own decisions on what action to take.

Accounting Treatment

The exchange notes will be recorded in our accounting records at the same carrying value as the outstanding notes on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes as a result of the exchange offer. We will amortize the expenses of the exchange offer over the term of the exchange notes.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion addresses material United States federal income tax considerations applicable to the holder that exchanges outstanding notes for exchange notes. This discussion is based on the provisions of the Internal Revenue Code of 1986, as amended (the "Code"), the applicable treasury regulations promulgated or proposed under the Code, judicial authority and current administrative rulings and practice. All of these authorities may change without notice, possibly on a retroactive basis. This summary deals only with holders that will hold exchange notes as capital assets within the meaning of Section 1221 of the Code. It does not address tax considerations applicable to investors that may be subject to special tax rules, such as banks and other financial institutions; tax-exempt organizations; insurance companies; partnerships; expatriates; traders or dealers in securities or currencies; custodians, nominees or similar financial intermediaries holding exchange notes for others; persons that will hold exchange notes as a position in a hedging transaction, straddle or conversion transaction for tax purposes or persons subject to the alternative minimum tax. This summary does not discuss the tax consequences of any conversion of currency into or out of the United States dollar as such a conversion relates to the purchase, ownership or disposition of the notes. Meritage has not sought any ruling from the Internal Revenue Service (IRS) with respect to the statements made and the conclusions reached in the following summary. There can be no assurance that the IRS will agree with such statements and conclusions.

HOLDERS OF OUTSTANDING NOTES SHOULD CONSULT THEIR OWN TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE UNITED STATES FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES ARISING UNDER THE LAWS OF ANY STATE, LOCAL OR FOREIGN TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY AS TO HOW THEIR PARTICULAR TAX SITUATION MIGHT BE AFFECTED BY THE EXCHANGE OF THE OUTSTANDING NOTES FOR THE EXCHANGE NOTES AND THE HOLDING AND DISPOSITION OF THEIR EXCHANGE NOTES.

United States Holders

For purposes of this discussion, a United States holder is the beneficial owner of an exchange note that, for United States federal income tax purposes, is:

- an individual citizen or resident of the United States;
- a corporation or other entity taxable as a corporation created or organized under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to United States federal income taxation regardless of its source; or
- a trust, if (i) one or more United States persons (as defined in Section 7701(a)(30) of the Code) have the authority to control all substantial decisions of the trust and a court within the United States is able to exercise primary supervision over the administration of the trust or (ii) it has a valid election in effect to be treated as a United States Person.

A non-United States holder is a beneficial owner of an exchange note who is a nonresident alien or a corporation, trust or estate that is not a United States holder. If a partnership holds exchange notes, the tax treatment of a partner will generally depend on the status of the partner and on the activities of the partnership. Partners of partnerships holding notes should consult their tax advisors.

Exchange of Notes

The exchange of outstanding notes for exchange notes pursuant to the exchange offer will not constitute a material modification of the terms of the notes and thus will not constitute a taxable event for United States holders. Consequently, United States holders will not recognize gain upon the receipt of exchange notes in exchange for outstanding notes in the exchange offer, United States holders' bases in

the exchange notes received in the exchange offer will be the same as their bases in the corresponding outstanding notes immediately before the exchange, and United States holders' holding period in the exchange notes will include their holding period in the outstanding notes.

Payment of Interest

Stated interest on an exchange note generally will be includible in the income of a United States holder as ordinary income at the time such interest is received or accrued, in accordance with the holder's method of accounting for United States federal income tax purposes.

Market Discount

United States holders should be aware that the resale of an exchange note may be affected by the market discount rules of the Code. Under these rules, a subsequent purchaser of an exchange note acquiring the note at a market discount generally would be required to include as ordinary income a portion of the gain realized upon the disposition or retirement of the note to the extent of the market discount that has accrued while the debt instrument was held by the purchaser. A purchase at a market discount includes the purchase of a note after its original issuance at a price less than the note's stated redemption price at maturity. The amount of market discount, if any, will generally equal the excess of:

- the sum of the issue price of the note and the aggregate amount of the discount includible in the gross income of all United States holders, over
- the purchase price.

Gain recognized on the disposition, including a redemption, by a United States holder of an exchange note that has accrued market discount will be treated as ordinary income, and not capital gain, to the extent of the accrued market discount, but only if the amount of market discount exceeds a statutorily-defined de minimis amount. Under the de minimis exception, there is no market discount on a note if the excess of the stated redemption price at maturity of the note over the holder's tax basis in the note is less than 0.25% of the stated redemption price at maturity multiplied by the number of complete years after the acquisition date to the note's date of maturity. Unless the holder elects otherwise, as described below, the accrued market discount would be the amount calculated by multiplying the market discount by a fraction:

- the numerator of which is the number of days the obligation has been held by the holder; and
- the denominator of which is the number of days after the holder's acquisition of the obligation up to and including its maturity date.

A United States holder of an exchange note acquired at market discount will be deemed to have realized an amount equal to the fair market value of the note if the holder disposes of the note in specified transactions other than a sale, exchange or involuntary conversion, even though the transaction is otherwise non-taxable (for example, a gift). The United States holder will be required to recognize as ordinary income any accrued market discount to the extent of the deemed gain. A holder of an exchange note acquired at a market discount also may be required to defer the deduction of all or a portion of the interest on any indebtedness incurred or maintained to purchase or carry the note until it is disposed of in a taxable transaction.

A United States holder of an exchange note acquired at market discount may elect to include the market discount in income as it accrues. This election would apply to all market discount obligations acquired by the electing United States holder on or after the first day of the first taxable year to which the election applies. The election may be revoked only with the consent of the IRS. If a United States holder of a note elects to include market discount in income currently, the rules discussed above with respect to ordinary income recognition resulting from sales and certain other dispositions and to deferral of interest deductions would not apply.

Amortizable Bond Premium

An exchange note purchased for more than its principal amount generally will be considered to have been purchased at a premium. The bond premium is generally equal to the excess, if any, of the tax basis of the note over the amount payable at maturity of the note or, if a smaller premium would result, on an earlier call date of the note. A note holder may elect to amortize the bond premium on a constant yield basis, in which case amortizable bond premium is allocated to payments of interest and treated as an offset to interest income. A holder that elects to amortize premium must reduce the holder's tax basis in the note by the amount of the aggregate deductions, or interest offsets, allowable for the amortization of premium. If an election to amortize bond premium is not made, a note holder must include the full amount of each interest payment in income in accordance with the note holder's regular method of tax accounting, and the note holder will generally receive a tax benefit from the bond premium only upon computing the note holder's gain or loss upon the sale or other disposition or payment of the principal amount of the note.

Sale, Exchange, Redemption or Other Taxable Disposition of Notes

Upon the sale, exchange, redemption or other taxable disposition of an exchange note, a United States holder generally will recognize capital gain or loss equal to the difference between:

- the amount of cash proceeds and the fair market value of any property received on the sale, exchange, redemption or other taxable disposition, except to the extent such amount is attributable to accrued interest income, which is taxable as ordinary income (as described above under "Payment of Interest"); and
- such holder's adjusted tax basis in the note.

A United States holder's adjusted tax basis in a note generally will equal the cost of the note to such holder less any amortized bond premium and any principal payments received by such holder plus any market discount previously included in income. Such capital gain or loss will be long-term if the United States holder's holding period is more than one year and will be short-term if the holding period is one year or less. Long-term capital gains recognized by individuals are generally taxed at a current maximum federal tax rate of 15%.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply to certain noncorporate United States holders with respect to payments of principal, premium and interest on a note, and to payments of the proceeds of the sale of a note. The receipt of such payments may be subject to "backup withholding" at a current rate of 28%. Backup withholding generally applies only if the holder:

- fails to furnish his or her Social Security or other taxpayer identification number within a reasonable time after the request for it;
- furnishes an incorrect taxpayer identification number;
- is notified by the IRS that he or she has failed to report properly interest, dividends or original issue discount; or
- fails, under specified circumstances, to provide a certified statement, signed under penalties of perjury, that the taxpayer identification number provided is the correct number and that he or she is not subject to backup withholding.

Any amounts withheld under the backup withholding rules from a payment to a United States holder will be allowed as a credit against such holder's United States federal income tax and may entitle the holder to a refund, provided that the required information is furnished to the IRS.

Non-United States Holders

Exchange of Notes

The exchange of outstanding notes for exchange notes pursuant to the exchange offer will not constitute a material modification of the terms of the notes and thus will not constitute a taxable event for non-United States holders. Consequently, non-United States holders will not recognize gain upon the receipt of exchange notes in exchange for outstanding notes in the exchange offer, non-United States holders' bases in the exchange notes received in the exchange offer will be the same as their bases in the corresponding outstanding notes immediately before the exchange, and non-United States holders' holding period in the exchange notes will include their holding period in the outstanding notes.

Payment of Interest

Generally, interest income of a non-United States holder that is not effectively connected with a United States trade or business will be subject to a withholding tax at a 30% rate or any lower rate that may be prescribed by an income tax treaty between the United States and the holder's country of residence. However, such interest will qualify for the portfolio interest exemption and, therefore, will not be subject to United States federal income tax or withholding tax if the non-United States holder:

- does not actually or constructively own 10% or more of the combined voting power of all classes of stock of Meritage entitled to vote, and
- is not a controlled foreign corporation related to Meritage, actually or constructively through stock ownership under section 864(d)(4) of the Code.

and either:

- provides to Meritage or its agent an appropriate W-8 series Form or a suitable substitute form signed under penalties of perjury that includes its name and address and certifies as to the holder's non-United States status, and Meritage does not have actual knowledge or reason to know that the holder is a United States person, or
- Meritage does not have actual knowledge or reason to know that the holder is a United States person and Meritage receives (i) a withholding certificate from an intermediary payee (such as a withholding foreign partnership, qualified intermediary or U.S. branch of a non-United States bank or of a non-United States insurance company), and such intermediary obtains appropriate certification with respect to the holder's non-United States status and, if required, provides a copy of such certification to Meritage or (ii) if the payee is a securities clearing organization, bank or other financial institution that holds securities for its customers in the ordinary course, a statement signed under penalties of perjury that the institution has received a withholding certificate from the beneficial owner (or that it has received a similar statement from another financial institution), listing the name and address of the beneficial owner and attaching a copy of the beneficial owner's withholding certificate.

A non-United States holder which does not qualify for the "portfolio interest exemption" may nevertheless be entitled to an exemption from, or reduction on the rate of, the United States withholding tax on the interest and discount if such holder:

- resides in a jurisdiction which has a favorable income tax treaty with the United States,
- satisfies the conditions for the application of such treaty, and
- provides to Meritage or its agent the appropriate Form W-8 or a suitable substitute form.

Except to the extent that an applicable treaty otherwise provides, a non-United States holder generally will be taxed in the same manner as a United States holder with respect to interest if the interest is effectively connected with a United States trade or business of the non-United States holder. Effectively connected interest received by a corporate non-United States holder may also, under certain

circumstances, be subject to an additional branch profits tax at a 30% rate or, if applicable, a lower treaty rate. Even though such effectively connected interest is subject to income tax, and may be subject to the branch profits tax, it is not subject to withholding if the non-United States holder delivers an appropriate and properly executed W-8 series Form to Meritage or its agent.

Sale, Exchange, Redemption or Other Taxable Dispositions of Notes

A non-United States holder of an exchange note will generally not be subject to United States withholding tax on any gain realized on the sale, exchange, redemption or other taxable dispositions of an exchange note, other than gain attributable to accrued interest. Such gain also will generally not be subject to United States federal income tax unless:

- the gain is effectively connected with a United States trade or business of the non-United States holder (in which case such gain generally would be taxable in the same manner as effectively connected interest (as described above)), or
- in the case of a non-United States holder who is an individual, the holder is present in the United States for a period or periods aggregating at least 183 days (as such days are calculated in accordance with the Code) during the current taxable year of the disposition and certain other conditions are met (in which case such gain, net of certain U.S. source losses, may be subject to tax at a 30% rate).

The amount of gain realized upon the sale, exchange, or redemption of a note may include amounts attributable to accrued interest. Gain attributable to accrued interest will be taxable, if at all, as described above under “— Non-United States Holders — Payment of Interest.”

Information Reporting and Backup Withholding

In general, payments of interest made by Meritage and other payors to a non-United States holder will not be subject to backup withholding and information reporting, provided that the non-United States holder certifies its non-United States holder status under penalties of perjury or otherwise establishes an exemption. In general, payments of principal or the proceeds from the sale of exchange notes effected at a United States office of a broker are subject to both United States backup withholding and information reporting. However, a holder will not be subject to backup withholding and information reporting on such a payment provided that:

- the broker does not have actual knowledge or reason to know that the holder is a United States person and the holder has furnished to the broker:
 - an appropriate W-8 series Form or an acceptable substitute form upon which the holder certifies, under penalties of perjury, that the holder is a non-United States person, or
 - other documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with U.S. Treasury regulations, or
- the holder otherwise establishes an exemption.

In general, payments of principal or the proceeds from the sale of exchange notes effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, such payments will be subject to information reporting, but not backup withholding, if the holder fails to provide the documentation described above or otherwise establish an exemption and the broker is:

- a United States person,
- a controlled foreign corporation for United States tax purposes,
- a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period, or

- a foreign partnership, if at any time during its tax year:

- one or more of its partners are United States persons, who in the aggregate hold more than 50% of the income or capital interest in the partnership, or

- such foreign partnership is engaged in the conduct of a United States trade or business unless the broker does not have actual knowledge or reason to know that the holder is a United States person and the documentation requirements described above (relating to a sale of notes effected at a United States office of a broker) are met or the holder otherwise establishes an exemption.

Applicable Treasury regulations contain a number of other provisions affecting United States withholding taxes and reporting requirements including special rules for payments made to nonqualified intermediaries, flow-through entities and United States branches. Prospective investors should consult their tax advisors regarding the effect of these regulations.
